

**CENTRAL COAST WATER AUTHORITY
BOARD OF DIRECTORS
AGENDA**

**Chairman – Eric Friedman
Vice Chairman – Jeff Clay**

Thursday, July 23, 2026
9:00 AM

at 255 Industrial Way, Buellton, California 93427

Members of the public may participate by video call or telephone via
Microsoft Teams Meeting ID: 262 126 264 953 144 Passcode: cb6Xw3QP
or by dialing [+1 323-484-5095](tel:+13234845095) and entering access Code/Meeting ID: 189 844 651#

Please note: public participation by video call or telephone is for convenience only and is not required by law. If technical interruptions to the video call/telephone occur, the chair has the discretion to continue the meeting and participants are invited to take advantage of the other participation options above.

Public Comment on agenda items may occur via video call or telephonically, or by submission to the Board Secretary via email at lfw@ccwa.com no later than 8:00 a.m. on the day of the meeting. In your email, please specify (1) the meeting date and agenda item (number and title) on which you are providing a comment and (2) that you would like your comment read into the record during the meeting. If you would like your comment read into the record during the meeting (as either general public comment or on a specific agenda item), please limit your comments to no more than 250 words.

Every effort will be made to read comments into the record, but some comments may not be read due to time limitations. Please also note that if you submit a written comment and do not specify that you would like this comment read into the record during the meeting, your comment will be forwarded to Board members for their consideration.

Pursuant to Government Code section 54957.5, non-exempt public records that relate to open session agenda items and are distributed to a majority of the Board less than seventy-two (72) hours prior to the meeting will be available on the CCWA internet web site, accessible at <https://www.ccwa.com>.

IX. Items for Next Regular Meeting Agenda

X. Date of Next Regular Meeting: August 27, 2026

XI. Adjournment

**MINUTES OF THE
CENTRAL COAST WATER AUTHORITY
SPECIAL MEETING OF THE BOARD OF DIRECTORS
April 23, 2026**

I. Call to Order and Roll Call

Chair Friedman called the April 23, 2026 Central Coast Water Authority (CCWA) Board of Directors special meeting to order at 9:05 AM.

CCWA member agencies with voting privileges were represented by:

Representative	Agency/City	Voting %
Jeff Clay	Santa Ynez River Water Conservation District, ID #1	7.64%
Ken Coates	Montecito Water District	9.50%
Kelley Dyer	Carpinteria Valley Water District	7.64%
Eric Friedman	City of Santa Barbara	11.47%
Kathleen Werner	Goleta Water District	17.20%

II. Public Comment

There was no public comment related to items not on the agenda.

The board went to closed session at 9:06 AM.

III. Closed Session

- A. CLOSED SESSION: CONFERENCE WITH LEGAL COUNSEL – ANTICIPATED LITIGATION
Initiation of litigation pursuant to Government Code section 54956.9(d) (4): 1 matter

IV. Return to Open Session

The Board returned to open session at 9:30 AM.

- A. Report on Closed Session Actions

Ms. Hastings stated there were no reportable actions as a result of closed session.

V. Adjournment

The meeting was adjourned at 9:30 AM.

Respectfully submitted,

Elizabeth Watkins
Secretary to the Board

**MINUTES OF THE
CENTRAL COAST WATER AUTHORITY
BOARD OF DIRECTORS**

April 23, 2026

I. Call to Order and Roll Call

Chair Friedman called the April 23, 2026 Central Coast Water Authority (CCWA) Board of Directors meeting to order at 9:32 AM.

CCWA member agencies with voting privileges were represented by:

Representative	Agency/City	Voting %
Jeff Clay	Santa Ynez River Water Conservation District, ID #1	7.64%
Ken Coates	Montecito Water District	9.50%
Kelley Dyer	Carpinteria Valley Water District	7.64%
Eric Friedman	City of Santa Barbara	11.47%
Kathleen Werner	Goleta Water District	17.20%

II. Public Comment

There was no public comment related to items not on the agenda.

III. Consent Calendar

- A. Minutes of the March 26, 2026 Regular Meeting
- B. Bills
- C. Controller's Report
- D. Operations Report

Upon a motion by Director Coates, seconded by Director Dyer and carried with Directors Clay, Coates, Dyer, Friedman and Werner in favor and none opposed the Board approved the Consent Calendar.

IV. Executive Directors Report

- A. Water Supply Situation Report

Mr. David Beard, CCWA Deputy Director of Operations and Engineering, provided an update on the current hydrology and water storage within the state, as well as the status of year-to-date delivery to CCWA project participants.

- B. Water Transfers Update

There has been no change regarding the assistance agreements currently in process for proposed transfers by CCWA project participants.

- C. Furnishing and Delivering Bulk Treated Water Chemical Contracts

CCWA issues annual contracts for the purchase of bulk treated water chemicals. Two one-year extensions may be issued based on vendor performance and

proposed extension pricing. The existing chemical contracts, including all extensions, will expire in May 2026. CCWA issued a RFB and received bids to furnish and deliver bulk treated water chemicals beyond the forthcoming contract expiration date. CCWA staff estimates approximately \$1,085,000 will be expended on the chemicals listed during Fiscal Year 2026-27.

Upon a motion by Director Werner, seconded by Director Coates and carried with Directors Clay, Coates, Dyer, Friedman and Werner in favor and none opposed the Board authorized the Executive Director to execute contracts with the following vendors to furnish and deliver bulk treated water chemicals:

- Chemtrade Chemicals US, LLC for aluminum sulfate at a cost of \$598.33/dry ton (DT)
- Hill Brothers Chemical Co. for ammonium hydroxide at a cost of \$2,401.26/DT
- JCI Jones Chemical, Inc. for liquid chlorine at a cost of \$1,910.00/ton
- JCI Jones Chemical, Inc. for sodium bisulfite at a cost of \$3,225.00/DT
- Univar Solutions USA, LLC for sodium hydroxide at a cost of \$865.00/DT
- Univar Solutions USA, LLC for sodium hypochlorite at a cost of \$4.94/gallon (gal)

D. FY 2025/26 Third Quarter Investment Report

As of March 31, 2026, the investment portfolio totaled \$42 million and had an effective rate of return of 3.51%. Ms. Dessi Mladenova, CCWA Controller and Treasurer, reported the investments were comprised of Montecito Bank & Trust money market accounts of \$1 million, and Charles Schwab market funds of \$41 million. All investments during the quarter complied with the CCWA investment policy provisions and current pro forma projections indicate that the Authority will have sufficient cash with which to operate for the next six months.

Upon a motion by Director Coates, seconded by Director Dyer and carried with Directors Clay, Coates, Dyer, Friedman and Werner in favor and none opposed the Board accepted the report.

E. Annual Review of the CCWA Investment Policy

The CCWA Investment Policy is prepared in conformance with Government Code Section 53630-53686 which addresses investment of surplus funds by local government agencies. There have been no significant changes in Government Code Section 53630-53686 since the last review of the CCWA Investment Policy.

No action was requested.

F. CCWA FY 2026/27 Final Budget

Ms. Mladenova reviewed changes to the Preliminary Budget presented at the March 26, 2026 Board meeting, including an increase of \$ 65,000 in Professional consultant services for costs associated with the 5-year CCWA strategic plan development; an increase of \$ 25,000 in safety consultant costs for additional fire and wildlife safety programs at the Water Treatment Plant and use of \$1.5 million in CCWA credits and \$0.5 million in DWR investment interest income credit, per project participant election. The proposed final FY 2026/27 Budget is \$2 million

lower than the Preliminary FY 2026/27 Budget and \$7.1 million more than the final FY 2025/26 Budget.

Upon a motion by Director Dyer, seconded by Director Coates and carried with Directors Clay, Coates, Dyer, Friedman and Werner in favor and none opposed the Board approved and adopted the Final FY 2026/27 Budget as outlined in the staff report; authorized staff to obtain bids for those projects included in the Final FY 2026/27 Budget which require formal bids; and found the projects included in the Final FY 2026/27 Budget except from the California Environmental Quality Act and direct staff to file the applicable Notices of Exemption.

G. 2026 Review of Personnel Policy Manual

Mr. Jeff Dinkin, Stradling Yocca Carlson and Rauth, LLP, reviewed the recommended changes to the CCWA Personnel Policy Manual noting that the changes fell into the categories of Legislative, Operational or Clarification. The clarification changes related to changes necessitated by CalPERS requirements for certain special compensation types. The Personnel Committee had met on April 8, 2026 to review the edits and recommended Board approval of the changes.

Upon a motion by Director Werner, seconded by Director Coates and carried with Directors Clay, Coates, Dyer, Friedman, and Werner in favor and none opposed the Board accepted the proposed changes to the Personnel Policy Manual as detailed in the staff report.

H. 2027 Compensation and Benefit Survey

During its April 8, 2026 meeting the Personnel Committee the preparation of the 2027 Compensation and Benefit Study pursuant to the Board's policy of performing a study every five years, as well as the scope of the study. The Committee also considered the option of using the same list of comparator agencies as was used in 2022 and 2016, or if an analysis should be conducted to determine if new comparator agencies are warranted.

The Personnel Committee recommended Board approval of execution of a contract with Gallagher to conduct a compensation and benefit survey including an analysis of comparator agencies.

Upon a motion by Director Clay, seconded by Director Coates and carried with Directors Clay, Coates, Dyer, Friedman, and Werner in favor and none opposed the Board authorized the Executive Director execute a contract with Gallagher Benefit Services, Inc. to perform a compensation and benefit study which will include conducting a comparator analysis as detailed in Option 1 of their March 11, 2026 proposal.

I. State Water Contractors Report

Mr. Peter Thompson, CCWA Associate Director, noted the State Water Contractors have been focused on subsidence issues and in collaboration with DWR considered bringing US Bureau of Reclamation and the Central Valley

Project into a collective agreement regarding cost sharing. SWC are also gearing up for the water quality control plan update with the State Water Resources Control Board.

J. Legislative Report

Mr. Thompson noted that three bills sponsored by State Water Contractors have been successful in their initial hearings: SB 872, AB 2215 and SB 952. Chair Friedman provided a brief recap of the meeting he and Mr. Thompson had with Senator Limón's staff the prior week to discuss SB 872.

The Legislative Report prepared for the State Water Contractors by its legislative advocate was included in the meeting materials for the information of the Board.

K. Resolution No. 26-07 Commending Ray A Stokes for His 29 years of Service to CCWA and the Central Coast

Chair Friedman read the resolution into the record, as follows:

WHEREAS, Ray A. Stokes devoted nearly thirty years of distinguished service to the Central Coast Water Authority, serving as Controller from 1996 to 2003, Deputy Director of Finance from 2003 to 2013, and Executive Director from 2013 until 2026; and

WHEREAS, in the early years of his service to the Authority, Ray A. Stokes played a central role in the refinancing of Authority revenue bonds in 1996, 2006, and 2016, generating substantial and lasting financial benefits for the Authority's project participants; and

WHEREAS, throughout his tenure, Ray A. Stokes applied his exceptional interpersonal skills and steady leadership to managing and mentoring the Authority's employees and to strengthening productive working relationships with numerous local, state, and federal agencies, including the County of Santa Barbara, the California Department of Water Resources, and the United States Bureau of Reclamation; and

WHEREAS, Ray A. Stokes brought a deep understanding of California water supply, infrastructure, and public finance to his service on behalf of the Authority through his work on the Board of Directors of the State Water Contractors, including his service for 28 years as Chair of the State Water Contractors' Audit and Finance Committee; and

WHEREAS, under the prudent fiscal management and financial leadership of Ray A. Stokes, the Authority has earned the Government Finance Officers Association's Distinguished Budget Award for 28 consecutive years and Certificate of Achievement for Excellence in Financial Reporting for every year since the Authority began its operations in 1997; and

WHEREAS, during his tenure as Executive Director, Ray A. Stokes dedicated his experience, sound judgment, and attention to detail to addressing complex and mission-critical issues facing the Authority; and

WHEREAS, under Ray A. Stokes' leadership as Executive Director, the Authority achieved numerous significant accomplishments, including: (i) the diligent monitoring and auditing of the California Department of Water Resources' annual statements of charges, resulting in the return of millions of dollars to the Authority for the direct benefit of its project participants and their customers; and (ii) securing approval for the full and final assignment of the State Water Contract for Santa Barbara County to the Authority, a truly momentous milestone in the Authority's history; and

WHEREAS, through his service, Ray A. Stokes has served the residents of Santa Barbara County with devotion, professional skill, good humor, and an unwavering commitment to the values of public service.

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of the Central Coast Water Authority hereby finds and declares as follows:

1. The Board of Directors recognizes that Ray A. Stokes, through his leadership as Executive Director and his many years of prior service, has made extraordinary and lasting contributions to the success, integrity, and financial stability of the Central Coast Water Authority and to the benefit of its project participants and the public they serve; and

2. The Board of Directors hereby acknowledges and honors Ray A. Stokes upon his retirement from the Central Coast Water Authority and extends to him its sincere best wishes in his future endeavors; and

3. On behalf of the citizens of the Central Coast, the Board of Directors conveys to Ray A. Stokes its deep appreciation for his exemplary public service and affirms its belief that the community in which he has lived and worked for so many years is, and will remain, in his debt.

Upon a motion by Director Coates, seconded by Director Dyer and carried following a roll call vote with Directors Clay, Coates, Dyer, Friedman, and Werner in favor and none opposed the Board adopted Resolution No. 26-07 Commending Ray A Stokes for his 29 years of service to CCWA and the Central Coast.

The Board, members of staff, and members of the public congratulated Mr. Stokes on his retirement and thanked him for his service.

V. Reports from Board Members for Information Only

There were no reports from Board members.

VI. Items for Next Regular Meeting Agenda

There were no additions requested to the next meeting agenda.

VII. Date of Next Regular Meeting

The date of the next regular meeting of the Board is May 28, 2026.

VIII. Adjournment

The meeting was adjourned at 10:47 AM.

Respectfully submitted,

Elizabeth Watkins
Secretary to the Board

**MINUTES OF THE
CENTRAL COAST WATER AUTHORITY
BOARD OF DIRECTORS**

June 25, 2026

I. Call to Order and Roll Call

Chair Friedman called the June 25, 2026 Central Coast Water Authority (CCWA) Board of Directors meeting to order at 9:02 AM.

CCWA member agencies with voting privileges were represented by:

Representative	Agency/City	Voting %
Ken Coates	Montecito Water District	9.50%
Eric Friedman	City of Santa Barbara	11.47%
Patrick O'Connor	Carpinteria Valley Water District	7.64%
John Sanchez	City of Buellton	2.21%
Nick Urton	Santa Ynez River Water Conservation District, ID#1	7.64%
Amelia Villegas	City of Guadalupe	1.15%
Kathleen Werner	Goleta Water District	17.20%

Staff requested a change to the order of the agenda due to time constraints. Agenda items VII. A., D, H., and F., were requested for discussion at the start of the meeting immediately following public comment.

Upon a motion by Director O'Connor, seconded by Director Sanchez and carried with Directors Coates, Friedman, O'Connor, Sanchez, Urton, Villegas and Werner in favor and none opposed the request to reorder the agenda was approved.

II. Public Comment

There was no public comment related to items not on the agenda.

VII. Executive Directors Report

- A. CCWA Urban Water Management Plan and Water Shortage Contingency Plan
1. Open Public Hearing

Director Friedman opened the public hearing at 9:05 AM.

Mr. David Beard, CCWA Deputy Director, provided a presentation on the CCWA Urban Water Management Plan and Water Shortage Contingency Plan (UWMP).

The public hearing was closed at 9:15 AM.

2. Consider and Adopt Resolution No. 26-08 Adopting the 2025 Urban Water Management Plan and Water Shortage Contingency Plan For the Central Coast Water Authority

Upon a motion by Director Coates, seconded by Director Sanchez and carried following a roll call vote with Directors Coates, Friedman, O'Connor, Sanchez, Urton, Villegas and Werner in favor and none opposed the Board approved and adopted Resolution No. 26-08 Adopting the 2025 Urban Water Management Plan and Water Shortage Contingency Plan For the Central Coast Water Authority

D. Transfer of Surplus Water to Westside Districts

Mr. Peter Thompson, CCWA Executive Director, provided a summary of the terms of the transaction, including the steps necessary to finalize the agreement to transfer the water.

Upon a motion by Director O'Connor, seconded by Director Sanchez and carried following a roll call vote with Directors Coates, Friedman, O'Connor, Sanchez, Urton, Villegas and Werner in favor and none opposed the Board approved and adopted Resolution No. 26-09 Approving the Short-Term Transfer of SWP Water to Westside Districts

H. Montecito Water District Withdrawal of Funds from CCWA Rate Coverage Reserve Fund

Mr. Thompson reviewed the voluntary fund that was established to allow participants to cover a portion of their obligation related to the rate coverage reserve policy. He noted staff recommendation not to delay the return of the funds for 180 days as required by the policy as there are no investment maturities related to the funds.

Upon a motion by Director Sanchez, seconded by Director Urton and carried with Directors Coates, Friedman, O'Connor, Sanchez, Urton, Villegas and Werner in favor and none opposed the Board authorized withdrawal of MWD funds from CCWA's Rate Coverage Reserve Fund in less than the 180 days required by CCWA's Rate Coverage Reserve Fund policy.

F. Selection of a Facilitator for Development of a Strategic Plan for CCWA

Two proposals from facilitator firms to assist in the development of a CCWA Strategic plan were included in the meeting materials, and Mr. Thompson briefly reviewed the proposals.

Following discussion, upon a motion by Director Coates, seconded by Director Urton and carried with Directors Coates, Friedman, O'Connor, Sanchez, Urton, Villegas and Werner in favor and none opposed the Board approved the selection of Ken Kirby with Evotoco to facilitate the development of the CCWA Strategic Plan and authorize the Executive Director to enter into a contract for those services for a fixed fee of \$63,300.

Director Urton left the meeting at 9:45 AM.

Following discussion, the rest of the items on the regular meeting agenda were postponed until the next regular meeting of the Board, scheduled for July 23, 2026.

III. Date of Next Regular Meeting

The date of the next regular meeting of the Board is July 23, 2026.

IV. Adjournment

The meeting was adjourned at 9:47 AM.

Respectfully submitted,

Elizabeth Watkins
Secretary to the Board

Notes to Financial Statements
June 30, 2023

Note 1: Accounts Receivable

Accounts receivable consists of amounts payable by the State Water Project contractors and other miscellaneous receivables.

Note 2: O&M Reserve Fund

The O&M reserve fund represents cash reserves for emergency uses. The funding requirement is \$2,000,000 allocated on an entitlement basis for the Santa Barbara County project participants. Investment earnings on O&M reserve fund balances are credited against CCWA O&M assessments.

Project Participant	Amount
City of Guadalupe	\$ 28,157

TOTAL:	<u>\$ 2,002,636</u>

Central Coast Water Authority
Notes to Financial Statements
June 30, 2023

Note 3: DWR Reserve Fund

The DWR Reserve Fund was established to provide a funding source for payments to the State of California Department of Water Resources (DWR) when there is a difference between estimates used to prepare the DWR portion of the annual CCWA budget and the actual amounts billed to the Authority by DWR. Contributions to the DWR Reserve Fund are voluntary. Funding of each participating Project Participant's share of the DWR Reserve Fund will come from a combination of (1) CCWA Operating Expense budget surpluses, if any (2) Interest earnings on funds held in all other accounts on behalf of the participating Project Participant and (3) excess amounts, if any, from any of the DWR Statement of Charges cost components until the funding Target Amount is reached. The Target Amount will be equal to the participating Project Participant's proportional share of a \$10 million allocation of DWR Transportation Minimum OMP&R charges. The following schedule shows the current fund balance of the participating Project Participants.

Project Participant	Amount
City of Guadalupe	\$ 141,435
City of Santa Maria	4,219,495

Raytheon Systems Co.	12,365
City of Santa Barbara	474,948
TOTAL:	<u><u>\$ 5,905,409</u></u>

Note 4: Rate Coverage Reserve Fund Cash Deposits

The rate coverage reserve fund was established to provide CCWA project participants a mechanism to satisfy a portion of their obligation under Section 20(a) of the Water Supply Agreement to impose rates and charges sufficient to collect 125% of their contract payments. The following schedule shows the current balances plus accrued interest receivable in the rate coverage reserve fund.

Project Participant	Amount

CENTRAL COAST WATER AUTHORITY
MEMORANDUM

June 10, 2026

TO: CCWA Board of Directors

FROM: David R. Beard
Deputy Director of Operations and Engineering

SUBJECT: Water Transfers Update

SUMMARY

This report provides Staff's continuing update on the status of implementation of Central Coast Water Authority (CCWA) Assistance Agreements with Montecito Water District (MWD), La Cumbre Mutual Water Company (LCMWC) and the 2026 Surplus Water Transfer Program (SWTP).

RECOMMENDATION

None. For information only.

DISCUSSION

The CCWA Board of Directors (Board) have previously approved Assistance Agreements with Montecito Water District (MWD) to assist with implementation of a proposed transfer and exchange of MWD's State Water Project (SWP) allocation with Homer, LLC (Homer); and with La Cumbre Mutual Water Company (LCMWC) to assist with implementation of proposed transfers pursuant to the agreement between LCMWC and Homer. Under the Assistance Agreements, CCWA will coordinate with the Department of Water Resources (DWR) and other SWP Contractors, on behalf of MWD and LCMWC. The CCWA Board also approved a 2026 SWTP Participation Agreement. Under the 2026 SWTP Participation Agreement, CCWA will coordinate with other SWP Contractors to develop water transfer and/or exchange opportunities for interested CCWA Participants.

MWD Transfer Program

In 2025, CCWA received a fully executed copy of the DWR agreement governing MWD's non-permanent Table A transfer program. In 2026, CCWA continued to assist with implementation of MWD's non-permanent Table A transfer program by executing an amendment to the DWR agreement to include additional SWP water delivery points within Kern County Water Agency's service area.

LCMWC Transfer Program

Oak Flat Water District is the lead agency for the California Environmental Quality Act (CEQA) analysis and recirculated a draft Initial Study/Negative Declaration (IS/ND) for public review. CCWA staff is assisting with LCMWC's proposed transfer program by preparing an addendum

to tier off of the adopted IS/ND. CCWA Board approval of the proposed LCMWC water management program and compliance with all requirements of the Water Management Amendment will be requested at a future Board Meeting.

SWTP Participation Agreement

CCWA staff has transmitted potential transfer and exchange opportunities to interested CCWA Participants and is coordinating on the development of a water management program agreement with Dudley Ridge Water District, Berrenda Mesa Water District, Lost Hills Water District, Belridge Water Storage District, and Wheeler Ridge-Maricopa Water Storage District (Westside Districts). CCWA staff is requesting the CCWA Board's approval of the proposed water management program with the Westside Districts and compliance with all requirements of the Water Management Amendment at the CCWA Board Meeting scheduled for June 25, 2026.

ENVIRONMENTAL REVIEW

None. Not applicable.

CENTRAL COAST WATER AUTHORITY

MEMORANDUM

June 10, 2026

TO: CCWA Board of Directors

FROM: David R. Beard
Deputy Director of Operations and Engineering

SUBJECT: Report on the Emergency Repair to the Polonio Pass Water Treatment Plant Treated Water Pipeline

SUMMARY

A water leak was observed at the Polonio Pass Water Treatment Plant (WTP) Outlet Vault and was confirmed to be from the treated water pipeline which conveys water from the Chlorine Contact Basin (CCB) to the treated water clearwells. Excavation of the pipeline was required to confirm the leak location and repair plan. Pursuant to the emergency provision in CCWA Resolution No. 23-09, Amending the Rules and Regulations Governing the Policy and Procedures for the Purchase of Services, Supplies or Equipment, CCWA retained a contractor to excavate and backfill portions of the pipeline, install and remove trench shoring and perform asphalt repairs.

RECOMMENDATION

None. For information only.

DISCUSSION

CCWA Resolution No. 23-09 provides if, in the judgment of the Executive Director, services, supplies and/or equipment are needed in order to make emergency repairs, construction or maintenance, which emergency will not allow the normal procedure of calling for bids or securing the approval of the Board of Directors (Board), the Executive Director may, with the approval of the Chair or Vice Chair of the Board, purchase all necessary services, supplies and equipment in the open market without Board approval or the necessity of calling for bids. The Executive Director shall make a complete report of the circumstances constituting the emergency to the Board at its next meeting following the purchase of said services, supplies and equipment.

CCWA staff observed a water leak emanating from a concrete wall in the WTP Outlet Vault, and water quality testing confirmed the source of the leak to be treated water rather than groundwater. CCWA staff reviewed record drawings and concluded a 60" diameter steel pipeline was the most likely source of the leak. Excavation and installation of shoring along portions of the pipeline was required to expose the pipeline and determine the location of the leak. CCWA staff met with and received approval from the Board Chair to excavate and perform emergency repairs to the treated water pipeline.

CCWA executed an agreement with ABI, Inc. (ABI) to locate the leak by excavating portions of the pipeline. ABI's total cost was determined by the number of days onsite and their scope of work included the excavating and backfilling the pipeline, installation and removal of trench shoring and asphalt repairs.

Once the leak was located, a WTP outage was scheduled and CCWA staff installed an internal seal in the pipeline at a flexible joint near the CCB outlet. The internal seal is viewed as a temporary fix, and a project is being designed to remove and replace the flexible joint.

The WTP Appropriated Contingency Fund was used to pay the emergency repair costs. A summary of the final costs is provided on the following table.

Item	Cost	Budget
WTP Contingency Fund		\$ 96,522
Soil Compaction Testing	\$ 1,696	
Internal Seal Purchase	4,844	
Confined Space Rescue Crew	6,576	
Excavation/Backfill/Shoring/Asphalt	132,224	
Total Project Cost	\$ 145,340	

Under / (Over) Budget		\$ (48,818)
------------------------------	--	--------------------

The total emergency repair costs exceeded the WTP Appropriated Contingency Fund, and the WTP Equipment Repair and Maintenance Fund was used to pay the additional costs.

ENVIRONMENTAL REVIEW

“Emergency projects” are exempt from the requirements of the California Environmental Quality Act (CEQA). CEQA defines an “emergency” to include “emergency repairs to publicly or privately owned service facilities necessary to maintain service essential to the public health, safety, or welfare.” CEQA Guidelines § 15269(b). Emergency repairs may include actions that require a reasonable amount of planning in response to an anticipated emergency. *Id.* The repair of the leaking treated water pipeline qualifies as an emergency repair because it is necessary to maintain essential public services and protect public health and safety. Accordingly, the pipeline repairs fall within CEQA’s emergency exemption and is exempt from CEQA review.

CENTRAL COAST WATER AUTHORITY

MEMORANDUM

June 19, 2026

TO: CCWA Board of Directors

FROM: Peter Thompson
Executive Director

SUBJECT: Appointments to Serve as CCWA's Primary and Alternate Representatives on the ACWA/JPIA Board of Directors

BACKGROUND

As a member of the ACWA/JPIA, CCWA is required to designate a Member director to the ACWA/JPIA Board, pursuant to Article 7 of the JPIA Agreement, excerpted below:

(a) The Authority shall be governed by the Board of Directors which is hereby established, and which shall be composed of one representative from each Member, who shall be a Member director selected by the governing board of that Member. Each Member, in addition to appointing its member of the Board, shall appoint at least one alternate who shall be an officer, member of the governing board, or employee of that Member. The alternate appointed by a Member shall have the authority to attend and participate in any meeting of the Board when the regular member for whom he or she is an alternate is absent from said meeting.

(b) Each Director or alternate of the Board shall serve until a successor is appointed. Each Director or alternate shall serve at the pleasure of the Member by which he or she has been appointed.

(c) Each Director representing a Member, or his or her alternate, shall have one vote.

DISCUSSION

Since 2022 CCWA has had only one representative to the ACWA/JPIA Board, former Executive Director Ray Stokes. This is in part due to there being no provision to provide travel reimbursement for Directors. As Ray has retired, CCWA is currently without representation on the ACWA/JPIA Board.

RECOMMENDATION

To comply with Article 7 of the JPIA Agreement, I am recommending the Board appoint me as its representative to the ACWA/JPIA Board and Deputy Director David Beard as the alternate, and authorize the Board's Secretary to notify ACWA/JPIA of the appointments.

CENTRAL COAST WATER AUTHORITY

MEMORANDUM

Agenda Item VII. E.
Board of Directors
July 23, 2026

July 23, 2026

TO: CCWA Board of Directors

FROM: Dessi Mladenova
Controller

SUBJECT: DWR Calendar Year 2027 Statement of Charges

SUMMARY

DWR released the calendar year 2027 Statement of Charges (copy attached to this report) on July 1, 2026, as required under the water supply contract. This report will discuss the differences between the amounts used to prepare the FY 2026/27 CCWA Budget and the actual amounts in the 2027 DWR Statement of Charges.

DISCUSSION

Each year when the CCWA Budget is being prepared, CCWA must estimate the charges from DWR for the second half of the CCWA fiscal year because DWR bills on a calendar year basis, while CCWA prepares its budget on a fiscal year basis.

Pursuant to the water supply contract with DWR, DWR submits the Statement of Charges for the next calendar year on July 1st of each year. After receipt of the Statement of Charges, CCWA then compares the actual charges from DWR to the amounts used in preparing the fiscal year budget to determine the difference between the estimates and the actual costs. The following table shows the differences in the DWR fixed costs used in preparing the FY 2026/27 Budget and the actual Statement of Charges for fiscal year 2027.

FY 2026/27 DWR Fixed costs reconciliation schedule						
Project	(A) Water System Revenue Bond	(B) Delta Water Charge	(C) Transportation Capital	(D) Coastal Branch	(E) Transportation Minimum	(F) Total FY 2026/27 Credit (Due)

DWR 2027 Statement of Charges(54659.1) DHM

DWR Fixed Costs

The cost components with the biggest difference are Transportation Minimum OMP&R with a decrease of \$1.4 Million (E) followed by Water System Revenue Bond with an increase of about \$1.3 Million (A). Delta Water Charge shows a decrease of \$0.4 Million(B). Transportation Capital shows an increase of \$0.4 Million(C). Coastal Branch is on target with the budget(D).

The reason for the decrease in the **Transportation Minimum OMP&R** is a projected reduction in the Calendar Year 2026 and 2027 calculated cost components plus a Historical true up for a cumulative decrease of \$ 2.8 Million or \$1.4 Million on a Fiscal Year basis.

The increase in the **Transportation Capital cost** component is due to the inclusion of the first Paygo (PG) 2026 Series A debt obligation for water system costs incurred post the contract extension date of January 2024. There is a 2-year delay between the timing of the cost incurred, cost bonded and cost billed to the State Water Contractors. The 2027 SOC includes about \$0.7 Million for Paygo costs, which are made of annual P&I and bond cover which is refunded the following year.

The **Delta Water Charge** was estimated in the budget higher than the actual 2027 scheduled payments by approximately \$0.4 Million.

DWR has temporarily deferred collection of the modified **Water System Revenue Bond Surcharge (WSRB)** amount pending resolution of historical billing disputes. However, this deferral does not extend to WSRB bond cover and power debt service charges as required by the Department bond covenants.

The CY 2027 SOC has a \$9.2 Million charge vs the budgeted amount of \$5.7 Million which is a \$3.5 Million increase (or 68%) on a CY basis or \$1.7 Million increase on a FY basis. The amount of surcharge cover and power debt will be refunded the following year. Water System Revenue Bond also received Surplus Money Investment Fund Interest earnings of \$263k in FY 2025-26 which reduced the FY 26/27 fixed budget charges.

Coastal Branch Extension received SMIF revenue of about \$ 59K in FY 2025-26.

The Transportation and Conservation Capital charges do not include any reduction for the projected 2027 Rate Management Credit (RMC) under the Monterey Amendment. The 2027 RMC, similar to the 2025 and 2026 RMC, are temporarily deferred.

In total, the charges are \$0.2 Million (F) lower than the estimates used in the FY 2026/27 Budget. The excess funds which will be used to offset future fixed assessment billings.

DHM

DEPARTMENT OF WATER RESOURCES

715 P STREET, P.O. BOX 942836
 SACRAMENTO, CA 94236-0001
 (916) 653-5791

June 30, 2026

Mr. Peter Thompson, Executive Director
 Central Coast Water Authority
 255 Industrial Way
 Buellton, California 93427-9591

Dear Mr. Thompson:

This is the Statements of Charges referred to in Article 29 of your agency's contract for a water supply from the State Water Project for payments which will be due in calendar year 2027.

Accompanying this statement are the attachments containing the supporting data used in determining the following charges:

Invoice No. 27-024-T (FZ & PG), Invoice 1:

Water System Revenue Bond Surcharge		\$	6,746,302
Capital Cost Component			
Delta Water Charge	\$	2,118,531	
Rate Management Credit Under Monterey Amendment		0	
			2,118,531
Transportation Charge		25,414,482	
Rate Management Credit Under Monterey Amendment		0	
Permanent Table A Sales Credit		(2,746)	
			25,411,736
Power Debt Service		2,442,885	
			2,442,885
Minimum Operation, Maintenance, Power and Replacement Component			
Delta Water Charge			2,576,223
Transportation Charge			11,757,402
Total for Invoice No. 27-024-T-FZ and 27-024-T-PG		\$	51,053,079

Based on scheduled deliveries from Table A, the variable Operation, Maintenance, Power and Replacement (OMP&R) component unit rates for the Transportation Charge are calculated on Attachment 5 for pumping water deliveries from the Delta.

The estimated charges for 2027 are:

Variable Operation, Maintenance,
Power and Replacement Component

Transportation Charge	\$	3,292,322
-----------------------	----	-----------

In accordance with Article 28, adjustments for overpayments and underpayments of prior Transportation Charges are accumulated with interest, at the project interest rate of 4.581 percent, and are applied against the payments to be made in 2027. The adjustment of the variable OMP&R component of the Transportation Charges will be applied equally each month to the actual metered water delivery billings.

The 2027 Off-Aqueduct Power Facilities Charge, Invoice No. 27-022-O, Invoice 1-1 is:

Minimum Operation, Maintenance,
Power and Replacement Component

Off-Aqueduct Power Facilities	\$	10,472
-------------------------------	----	--------

The 2027 Coastal Branch Extension Facilities Charge, Invoice No. 27-001-C, Invoice 1-4 is:

Capital Cost Component

Transportation Charge	\$	4,104,533
Net Capital Cost Component	\$	4,104,533

The Transportation Capital charge shown on Invoice 1-FZ and Attachment 1C (for M&I contractors) or 1D (for AG contractors) includes a credit for calendar year 2027 that resulted from permanent Table A sales. Attachment 11-FZ summarizes the credit by the State Water Project repayment reach that your agency participates in.

The Conservation Capital charge shown on Invoice 1-FZ and Attachment 1C (for M&I contractors) or 1D (for AG contractors) includes the non-FEMA reimbursable, water supply portion of costs for the Oroville Spillway Recovery project.

The Transportation Minimum Charge for Paygo is shown on Attachment 4B-PG.

The Minimum Delta Water Charge for Paygo is shown on Attachment 4H-PG.

Enclosed is Attachment 8 which shows the charges under the executed agreement for Municipal Water Quality Investigations (MWQI). The MWQI charges are included in the annual Statements of Charges under the Transportation Minimum OMP&R component.

The remaining Transportation and Conservation Replacement Accounting System (RAS) balances, due to be returned as a result of the Contract Extension Amendment eliminating the RAS cost category, are not included in this Statement of Charges (SOC) package. These balances will be returned to your Agency outside of the regular SOC and Variable invoice process.

Per the Department's May 14, 2026, letter to the State Water Contractors General Manager, the Department will temporarily defer collection of the modified Surcharge in the 2027 SOC's pending resolution of historical billing disputes. The temporary deferral does not extend to other charges that populate the surcharge component of the SOC, including bond cover and power debt service charges, required by the Department's bond covenants.

The Transportation and Conservation Capital charges do not include any reduction for the projected 2027 Rate Management Credit (RMC) under the Monterey Amendment. The 2027 RMC, similar to the 2025 and 2026 RMC, are temporarily deferred and will be included in the future Debt Service Billing Project discussions with the State Water Project Contractors

If you have any questions concerning these charges, please contact Nakithia Thomas, Manager of the Water Project Bill Processing and Analysis Office, at (916) 820-8120.

Sincerely,

Duane MacFarland

FOOTNOTES

Attachment 4A-FZ

1/ From Table B-15 of Appendix B to Bulletin 132-26, "Management of the California State Water Project".

2/ Payments in 2026 are assumed to be equal to those amounts shown on the Statement of Charges for 2026.

Attachment 4B-FZ

1/ From the Table B-16 of Appendix B to Bulletin 132-26.

2/ Payments in 2026 are assumed to be equal to those amounts shown on the Statement of Charges for 2026.

Attachment 4C-FZ

1/ From Table B-5a of Appendix B to Bulletin 132-26.

2/ From Table B-18 of Appendix B to Bulletin 132-26.

3/ Payments in 2026 are assumed to be equal to current calculated component plus the over/under adjustment for prior years.

Attachments 4A-FZ, 4B-FZ & 4C-FZ

4/ As indicated in this annual redetermination of charges by subtracting the respective annual payment received as shown in Column(3) from the current redetermination of the component shown in Column(2).

5/ Derived by multiplying each respective remainder shown in Column(4) by the applicable "compound amount factor". This factor is numerically equal to $(1+i)^n$, where "i" equals the current project interest rate of 4.581 percent per annum and "n" equals the number of interest periods between the year in which each previous payment was made and the year covered by this statement. The resulting factors for payments in the calendar years previous to this statement are tabulated below:

CENTRAL COAST WATER AUTHORITY

MEMORANDUM

July 23, 2026

TO: CCWA Board of Directors

FROM: Dessi Mladenova
Controller/Treasurer

SUBJECT: FY 2025/26 Fourth Quarter Investment Report

SUMMARY

Attached is the fourth quarter FY 2025/26 investment report covering the three-month period of April to June 2026. In accordance with the CCWA Statement of Investment Policy, the quarterly report includes a statement of compliance of the portfolio with the investment policy and confirmation of the Authority's ability to meet expenditure requirements for the next six months.

DISCUSSION

As of June 30, 2026, the investment portfolio totaled \$99.5 million and had an effective rate of return of 3.54%. The investments were comprised of Montecito Bank & Trust money market accounts of \$2.7 million, and Charles Schwab market funds of \$96.8 million.

All investments during the quarter complied with the CCWA investment policy provisions.

CASH MANAGEMENT PRO FORMA PROJECTIONS

Current pro forma projections indicate that the Authority will have sufficient cash with which to operate for the next six months.

RECOMMENDATION

That the Board of Directors accept the fourth quarter FY 2025/26 investment report.

State Water Contractors Legislative Update

July 15, 2026

1

Current SWC Bill Positions

Bill/Author	Summary	Status	SWC Position
AB 1881 (Ramos)	California Indian Freedom Act of 2026	Senate Appropriations	OPPOSE UNLESS AMENDED
AB 2032 (Ransom)	Eradication/management of golden mussels	Senate Appropriations	SUPPORT
AB 2215 (Calderon)	SWP water rights time extension	Failed Passage	SPONSOR
AB 2218 (Kalra)	State policy to recognize and address inequities inflicted upon California Native American tribes	Senate Appropriations	OPPOSE UNLESS AMENDED
SB 601 (Allen)	Protection of water quality in "nexus waters"	Assembly Appropriations	WATCH CLOSELY
SB 872 (McNerney)	Funding for conveyance subsidence and Delta levee repairs	Assembly Appropriations	CO-SPONSOR
SB 943 (Becker)	CPUC study of hybrid transmission access charge	Assembly Appropriations	SUPPORT
SB 952 (Laird)	SB 1020 flexibility and cleanup	Assembly Appropriations	SPONSOR

2

2

SWC Sponsored Bill Update – SB 872 (McNerney)

- Assembly action:
 - Assembly Water, Parks, and Wildlife Committee – 6/30/26
 - 11-0 vote
- Next steps:
 - Assembly Appropriations Committee – early August
 - Elevate funding need to three-party budget discussions/negotiations
- Budget request 3-year spend trajectory
 - Year 1 = \$110M (\$60M/Prop 4 + \$50M/GF)
 - Year 2 = \$100M
 - Year 3 = \$100M
 - Out-years = ~\$3B

3

3

SWC Sponsored Bill Update – AB 2215 (Calderon)

- Senate action:
 - Senate Natural Resources and Water Committee – July 1
 - Held in Committee without hearing
- De-brief legislative engagement
- Next steps

4

4

Energy Legislation Update

- **SWC-sponsored legislation** - SB 952 is intended to provide a more flexible and affordable pathway for DWR to achieve 100% renewable/zero-carbon resources by 2035, consistent with the statutory obligations in SB 1020 (Laird)
- Assembly action:
 - Assembly Utilities and Energy Committee – 18-0
 - Next: Assembly Appropriations Committee

Additional priority energy legislation – SB 943 (Becker)

- Would establish state policy that allocation of costs to ratepayers for transmission/distribution resources should follow cost-causation principles
- Would require the CPUC to develop recommendations for changes to the high voltage TAC that would improve consistency with causation principles – recommendations would be communicated to the ISO for consideration
 - Assembly Utilities and Energy Committee – 18-0
 - Next: Assembly Appropriations Committee

5

5

Additional Issues

- **Legislative issues on SWC “Watch” list:**
 - **Groundwater Recharge**
 - AB 2026 (Aguilar-Curry)
 - **Golden Mussels**
 - AB 1772 (Papan)
 - AB 1894 (Rubio)
- **Remaining budget issues:**
 - **Prop 4 Allocations**
 - **Greenhouse Gas Reduction Fund structure/restructure**

6

6

November General Election Ballot

TITLE	LEGISLATIVE /INITIATIVE	DESCRIPTION
Proposition 1	Legislative	\$11.25 billion in bonds to fund multifamily housing programs, CalVet Home Loan Program, and youth housing (<i>SB 417 – Limon</i>)
Proposition 2	Legislative	Increase the Budget Stabilization Account cap from 10% of general fund revenue to 20%, and exclude deposits into the Account from the Gann Limit (<i>ACA 20 – Gabriel</i>)
Proposition 37	Initiative	Establish a second mortgage homebuyer program for qualified homebuyers on qualifying homes and issue \$25 billion in bonds to fund the program (<i>CA Coalition for Homeownership</i>)
Proposition 38	Initiative	Establish an Immunology and Immunotherapy Research Institute affiliated with the University of California (<i>Californians for Immunology Research and Cures</i>)
Proposition 39	Initiative	Require voters to present government-issued identification when casting ballots and require election officials to use government data to confirm voter citizenship and report verification rates (<i>Californians for Voter ID</i>)
Proposition 3	Initiative	Renew the additional income taxes enacted with the approval of Prop 38 in 2012 that fund education and early childhood programs (<i>CA for Protecting Public Education, Health Care, and Budget Stability</i>)
Proposition 40	Initiative	Levy a one-time 5% tax on billionaires in the state to fund state-funded health care programs, such as Medi-Cal (<i>Save California Health Care and Public Education</i>)

7

7

November General Election Ballot

TITLE	LEGISLATIVE /INITIATIVE	DESCRIPTION
Proposition 41	Initiative	Require state laws or ballot initiatives levying a new special tax enacted after 1/1/26 to require the government entities receiving revenue from the new tax to eliminate their lowest-performing programs and invest savings in higher-performing programs (<i>Reform California</i>)
Proposition 42	Initiative	Prohibits the enactment of new taxes after 1/1/26 on ownership or accumulation of retirement holdings, individually-owned assets, and other forms of personal savings (<i>Building a Better CA</i>)
Proposition 43	Legislative	Requires 2/3 vote by electorate to enact, extend, or increase local special tax initiatives and prohibits the enactment of property taxes through the initiative process (<i>Howard Jarvis Taxpayers Association</i>)
Proposition 44	Initiative	Prohibits healthcare clinics from spending less than 90% of their annual revenue on mission-related purposes (<i>CA for Responsible Healthcare</i>)
Proposition 45	Initiative	Establishes timelines for local and state agencies to review plans and solicit public comment for essential projects, such as housing, water supply, transportation, energy, and facilities for health and public safety (<i>CA Chamber of Commerce</i>)
Proposition 4	Legislative	Allows the state and local governments to create programs that provide candidates with public funds under spending limits and eligibility rules (<i>SB 42 – Umberg</i>)
Proposition 5	Legislative	Eliminates the successor election when a state officer is recalled, thereby leaving the office vacant until it is filled according to state law (<i>SCA 1 – Newman</i>)

AB 35

(Alvarez D) Safe Drinking Water, Wildfire Prevention, Drought Preparedness, and Clean Air Bond Act of 2024: Administrative Procedure Act: exemption: program guidelines and selection criteria.

Current Text: Enrolled: 7/7/2026 [html](#) [pdf](#)

Introduced: 12/2/2024

Last Amend: 6/11/2026

Status: 7/2/2026-Senate amendments concurred in. To Engrossing and Enrolling. (Ayes 68. Noes 0.).

Location: 7/2/2026-A. ENROLLMENT

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The Administrative Procedure Act sets forth the requirements for the adoption, publication, review, and implementation of regulations by state agencies. The Safe Drinking Water, Wildfire Prevention, Drought Preparedness, and Clean Air Bond Act of 2024 (act), approved by the voters as Proposition 4 at the November 5, 2024, statewide general election, authorized the issuance of bonds in the amount of \$10,000,000,000 pursuant to the State General Obligation Bond Law to finance projects for safe drinking water, drought, flood, and water resilience, wildfire and forest resilience, coastal resilience, extreme heat mitigation, biodiversity and nature-based climate solutions, climate-smart, sustainable, and resilient farms, ranches, and working lands, park creation and outdoor access, and clean air programs. Existing law authorizes certain regulations needed to effectuate or implement programs of the act to be adopted as emergency regulations in accordance with the Administrative Procedure Act, as provided. Existing law requires the emergency regulations to be filed with the Office of Administrative Law and requires the emergency regulations to remain in effect until repealed or amended by the adopting state agency. This bill, notwithstanding the above, would exempt the adoption of regulations needed to effectuate or implement programs of the act from the requirements of the Administrative Procedure Act, as provided. The bill would require a state entity that receives funding to administer a competitive grant program established using the Administrative Procedure Act exemption to do certain things, including, among other things, to develop draft project solicitation and evaluation guidelines, to transmit copies of those guidelines to the fiscal committees and to the appropriate policy committees of the Legislature, to hold a noticed public meeting on those guidelines, and to submit those guidelines to the Secretary of the Natural Resources Agency, except as provided.

(Tangipa R) California Environmental Quality Act: exemption: egress route projects: fire safety.

Current Text: Amended: 7/3/2025 [html](#) [pdf](#)

Introduced: 12/3/2024

Last Amend: 7/3/2025

Status: 7/1/2026-Failed Deadline pursuant to Rule 61(b)(13). (Last location was N.R. & W. on 7/2/2025)

Location: 7/1/2026-S. DEAD

Desk	Policy	Fiscal	Floor	Desk	Dead	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The California Environmental Quality Act (CEQA) requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. This bill would, until January 1, 2032, exempt from CEQA egress route projects undertaken by a public agency to improve emergency access to and evacuation from a subdivision without a secondary egress route if the State Board of Forestry and Fire Protection has recommended the creation of a secondary access to the subdivision and certain conditions are met. The bill would require the lead agency to hold a noticed public meeting to hear and respond to public comments before determining that a project is exempt. The bill would require the lead agency, if it determines that a project is not subject to CEQA and approves or carries out that project, to file a notice of exemption with the Office of Land Use and Climate Innovation and with the clerk of the county in which the project will be located.

1st House				2nd House							

Summary: Current law establishes within the Natural Resources Agency, the State Lands Commission consisting of the Controller, the Lieutenant Governor, and the Director of Finance. Current law vests in the commission with exclusive jurisdiction over all ungranted tidelands and submerged lands owned by the state, and of the beds of navigable rivers, streams, lakes, bays, estuaries, inlets, and straits, including tidelands and submerged lands. Current law authorizes the commission to take immediate action to remove from areas under its jurisdiction a vessel that is left unattended and is moored, docked, beached, or made fast to land in a position as to obstruct the normal movement of traffic or in a condition as to create a hazard to navigation, other vessels using a waterway, or the property of another. Current law requires the commission, by July 1, 2019, and in consultation with other relevant state and local agencies directly involved in the removal of abandoned vessels, to develop a plan for the removal of abandoned commercial vessels. This bill would require the commission, on or before January 1, 2027, to create an inventory of all abandoned and derelict commercial and recreational vessels on or in waters within the Sacramento-San Joaquin Delta, including commercially navigable waters, as specified.

1st House				2nd House							

Summary: Current law authorizes the Public Utilities Commission to fix the rates and charges for every public utility and requires that those rates and charges be just and reasonable. This bill would require the commission to generate a report outlining recommendations to decrease the kilowatt-per-hour rate for electricity charged to ratepayers by not less than 30% by January 1, 2027. The bill would require the commission, in making those reduction recommendations, to take certain actions, as

specified.

1st House				2nd House							

Summary: Current law requires the State Fire Marshal to identify areas in the state as moderate, high, and very high fire hazard severity zones, as specified. Current law also requires the State Fire Marshal to classify lands within state responsibility areas into fire hazard severity zones, and, by regulation, to designate fire hazard severity zones and assign to each zone a rating reflecting the degree of severity of fire hazard that is expected to prevail in the zone. Current law requires the State Fire Marshal to periodically review very high fire hazard severity zones that are not state responsibility areas, and designated and rated zones that are state responsibility areas, as provided. This bill would instead require the State Fire Marshal, at least once every 5 years, to review areas in the state identified as moderate, high, and very high fire hazard severity zones, and to review lands within state responsibility areas classified as fire hazard severity zones.

Summary: The Porter-Cologne Water Quality Control Act establishes a statewide program for the control of the quality of all the waters in the state and makes certain legislative findings and declarations. Current law defines the term "beneficial uses" for the purposes of water quality as certain waters of the state that may be protected against quality degradation, to include, among others, domestic, municipal, agricultural, and industrial supplies. This bill would add findings and declarations related to California tribal communities, as defined, and the importance of protecting tribal water use. The bill would add tribal water uses as waters of the state that may be protected against quality degradation for purposes of the defined term "beneficial uses."

1st House				2nd House							

Summary: Current law charges the Office of Emergency Services (OES) with coordinating various emergency activities within the state. The California Emergency Services Act, contingent upon an appropriation by the Legislature, requires the OES to enter into a joint powers agreement pursuant to the Joint Exercise of Powers Act with the Department of Forestry and Fire Protection to develop and administer a comprehensive wildfire mitigation program relating to structure hardening and retrofitting and prescribed fuel modification activities. Current law authorizes the joint powers authority to establish financial assistance limits and matching funding or other recipient contribution requirements for the program, as provided. This bill, contingent upon appropriation by the Legislature, would establish the Rural Water Infrastructure for Wildfire Resilience Program within the OES for the distribution of state matching funds to urban wildland interface communities, as defined, in designated high fire hazard severity zones or very high fire hazard severity zones to improve water system infrastructure, as prescribed. The bill would require the OES to work in coordination with the Department of Water Resources, the State Water Resources Control Board, the Office of the State Fire Marshal, and other state entities as the OES determines to be appropriate, to achieve the purposes of the program.

Dead	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The California Global Warming Solutions Act of 2006 declares the policy of the state to achieve net zero greenhouse gas emissions as soon as possible, but no later than 2045, and to achieve and maintain net negative greenhouse gas emissions thereafter. The act requires the State Air Resources Board to prepare and approve a scoping plan for achieving the maximum technologically

feasible and cost-effective reductions in greenhouse gas emissions and to update the scoping plan at least once every 5 years. The act also requires the Natural Resources Agency, in collaboration with specified entities, including the state board, to determine an ambitious range of targets for natural carbon sequestration, and for nature-based climate solutions, that reduce greenhouse gas emissions for 2030, 2038, and 2045 to support state goals to achieve carbon neutrality and foster climate adaptation and resilience. The act requires these targets to be integrated into the above-described scoping plan and other state policies. This bill would specify that it is the goal of the state to achieve each of the targets established by the Natural Resources Agency by the applicable date for the target, with priority given to activities that most rapidly, significantly, and cost effectively increase carbon stocks and net sequestration, protect and support ecosystem function, and reduce emissions of greenhouse gases. The bill would also revise the definition of "natural carbon sequestration" for purposes of the above-described provisions.

	1st House				2nd House						

Summary: Current law establishes a state policy that eligible renewable energy resources and zero-carbon resources supply 90% of all retail sales of electricity to California end-use customers by December 31, 2035, 95% of all retail sales of electricity to California end-use customers by December 31, 2040, 100% of all retail sales of electricity to California end-use customers by December 31, 2045, and 100% of electricity procured to serve all state agencies by December 31, 2035, as provided. Current law requires the Public Utilities Commission (PUC), State Energy Resources Conservation and Development Commission (Energy Commission), and State Air Resources Board to issue a joint report to the Legislature by January 1, 2021, and every 4 years thereafter, that includes specified information relating to the implementation of that state policy. Current law requires the PUC and the Energy Commission to undertake various actions in furtherance of meeting the state's clean energy and pollution reduction objectives. This bill would require the Energy Commission, in coordination with specified agencies, to develop a strategic plan for new in-state geothermal energy in California, as specified. The bill would require the Energy Commission to submit the strategic plan to the Natural Resources Agency and the Legislature on or before June 30, 2027. The bill would require the Energy Commission, in coordination with specified agencies, to work with stakeholders, other relevant federal, state, and local agencies, interested Native American tribes, California load-serving entities, and the geothermal energy industry to identify suitable and recommended locations for the development of new in-state geothermal energy.

1st House				2nd House							

Summary: Current federal law, the Consolidated Appropriations Act, 2021 requires the federal Department of Health and Human Services to carry out a Low-Income Household Drinking Water and Wastewater Emergency Assistance Program, which is also known as the Low Income Household Water Assistance Program, for making grants to states and Indian tribes to assist low-income households that pay a high proportion of household income for drinking water and wastewater services, as provided. Current law requires the Department of Community Services and Development to administer the Low Income Household Water Assistance Program in this state, and to receive and expend moneys appropriated and allocated to the state for purposes of that program, pursuant to the above-described federal law. The Low Income Household Water Assistance Program was only operative until March 31, 2024. This bill would repeal the above-described requirements related to the Low Income Household Water Assistance Program.

1st House				2nd House							

Summary: Would, until January 1, 2029, and subject to appropriation, establish the Office of the California Public Records Act Ombudsperson. The bill would require the Governor to appoint the ombudsperson subject to certain requirements. The bill would require the ombudsperson to receive and investigate requests for review, as defined, determine whether the denials of original requests, as defined, complied with the California Public Records Act, and issue written opinions of its determination, as provided. The bill would require the ombudsperson to create a process to that effect, and would authorize a member of the public to submit a request for review to the ombudsperson consistent with that process. The bill would require the ombudsperson, within 30 days from receipt of a request for review, to make a determination, as provided, and would require the state agency to provide the public record if the ombudsperson determines that it was improperly denied. The bill would require the ombudsperson to create a process through which a person whose information is contained in a record being reviewed may intervene to assert their privacy and confidentiality rights, and would otherwise require the ombudsperson to maintain the privacy and confidentiality of records, as provided. The bill would require the ombudsperson to report to the Legislature, on or before March 31, 2027, and annually thereafter, on, among other things, the number of requests for review the ombudsperson has received in the prior year.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The California Endangered Species Act prohibits the taking of an endangered, threatened, or candidate species, except as specified. Under the act, the Department of Fish and Wildlife may authorize the take of listed species by certain entities through permits or memorandums of understanding for specified purposes. The act allows take of an endangered, threatened, or candidate species by permit if, among other things, the impact of the authorized take is fully minimized and mitigated. This bill would also allow the department to authorize by permit the take of a species proposed for listing, as defined, if specified conditions are met. The bill would provide that if a species proposed for listing becomes listed as an endangered, threatened, or candidate species, further authorization or approval shall not be required for a take of that species, if specified conditions are met, including that the species proposed for listing was included as a covered species in a permit previously issued by the department for incidental take and that the incidental take is caused by a renewable electrical generation facility.

1st House				2nd House							

Summary: The California Emergency Services Act establishes the Office of Emergency Services within the Governor's office under the supervision of the Director of Emergency Services and makes the office responsible for the state's emergency and disaster response services. The office serves as the State Disaster Council for the purposes of the California Disaster and Civil Defense Master Mutual Aid Agreement. Current law states it is the purpose of the Legislature to facilitate the rendering of aid to areas stricken by an emergency and to make unnecessary the execution of written agreements customarily entered into by public agencies exercising joint powers, and that emergency plans duly adopted and approved as provided by the Governor shall be effective as satisfying the requirement for mutual aid operational plans provided in the Master Mutual Aid Agreement. Current law requires outside aid be rendered in accordance with approved emergency plans during any state of war emergency or state of emergency when the need arises in any county, city and county, or city. This bill would additionally state that it is the purpose of the Legislature to facilitate the rendering of public works resources critical for disaster response and recovery to areas stricken by an emergency. The bill would require that outside aid rendered during any state of war emergency or state of emergency includes public works personnel, equipment, and materials.

Current Text: Amended: 6/15/2026 [html](#) [pdf](#)

Introduced: 2/14/2025

Last Amend: 6/15/2026

Status: 7/1/2026-Failed Deadline pursuant to Rule 61(b)(13). (Last location was HEALTH on 6/22/2026)

Location: 7/1/2026-S. DEAD

Desk	Policy	Fiscal	Floor	Desk	Dead	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law generally requires a health care service plan contract or a health insurance policy issued, amended, or renewed on or after January 1, 2022, to provide coverage without cost sharing for a colorectal cancer screening test assigned either a grade of A or a grade of B by the United States Preventive Services Task Force and for a required colonoscopy for a positive result on a test with those grades. This bill would additionally require that coverage if the screening test is approved by the United States Food and Drug Administration and either meets requirements for coverage established by the federal Centers for Medicare and Medicaid Services, as specified, or is included in the most recently published guidelines from the American Cancer Society. Because a

violation of the bill by a health care service plan would be a crime, the bill would impose a state-mandated local program.

1st House				2nd House				Conf. Conc.			

Summary: The California Endangered Species Act prohibits the taking of an endangered, threatened, or candidate species, except as specified. Under the act, the Department of Fish and Wildlife (department) may authorize the take of listed species by certain entities through permits or memorandums of understanding for specified purposes. Current law requires the State Fire Marshal to identify areas in the state as moderate, high, and very high fire hazard severity zones based on consistent statewide criteria and based on the severity of fire hazard that is expected to prevail in those areas. Existing law requires a local agency to designate, by ordinance, moderate, high, and very high fire hazard severity zones in its jurisdiction within 120 days of receiving recommendations from the State Fire Marshal, as provided. This bill would authorize a city, county, city and county, special district, or other local agency to submit to the department a wildfire preparedness plan to conduct wildfire preparedness activities on land designated as a fire hazard severity zone, as defined, that minimizes impacts to wildlife and habitat for candidate, threatened, and endangered species. The bill would require the wildfire preparedness plan to include, among other things, a brief description of the planned wildfire preparedness activities, the approximate dates for the activities, and a description of the candidate, endangered, and threatened species within the plan area. The bill would require the department to impose a fee on a local agency for the cost of reviewing a wildfire preparedness plan submitted by that local agency, as specified. The bill would require the department, if sufficient information is included in the wildfire preparedness plan for the department to determine if an incidental take permit is required, to notify the local agency within 90 days of receipt of the wildfire preparedness plan if an incidental take permit or other state permit is needed, or if there are other considerations, exemptions, or streamlined pathways that the wildfire preparedness activities qualify for, including, but not limited to, the State Board of Forestry and Fire Protection's California Vegetation Treatment Program.

1st House				2nd House							

Summary: The California Environmental Quality Act (CEQA) exempts certain projects from its requirements, including actions necessary to prevent or mitigate an emergency. Current law prohibits an electrical corporation from beginning the construction of a line, plant, or system, or extensions of those facilities without first obtaining from the Public Utilities Commission a certificate that the present or future convenience and necessity require or will require the construction. Current law specifies that the certificate is not required for the extension, expansion, upgrade, or other modification of existing electrical transmission facilities. This bill would require the commission to determine whether to certify the environmental impact report for an electrical infrastructure project that is a priority project, as defined, no later than 270 days after the commission determines that an application for an electrical infrastructure project is complete, except as specified. The bill would require a project applicant to identify an electrical infrastructure project that is a priority project and the basis for the designation in the application to the commission. The bill would require commission staff to review an application for a priority project no later than 30 days after it is filed and notify the applicant in writing of any deficiencies in the information and data submitted in the application. The bill would require the applicant to correct any deficiencies or notify the commission in writing why it is unable to, to correct those deficiencies, as specified, within 60 days of that notification. The bill would require the commission to deem an application for a priority project complete with a preliminary ruling setting the scope and schedule, as provided.

1st House				2nd House							

Summary: Current law vests the Public Utilities Commission (PUC) with regulatory authority over public utilities, including electrical corporations. Current law requires the PUC to continue a program of assistance to low-income electric and gas customers with annual household incomes that are no greater than 200% of the federal poverty guidelines, as specified, which is referred to as the California Alternate Rates for Energy (CARE) program. Current law also requires the PUC to continue a program of assistance to residential customers of the state's 3 largest electrical corporations consisting of households of 3 or more persons with total household annual gross income levels between 200% and 250% of the federal poverty guideline level, which is referred to as the Family Electric Rate Assistance (FERA) program. Current law, except as provided, requires revenues received by an electrical corporation as a result of the direct allocation of greenhouse gas allowances to be credited directly to residential, small business, and emissions-intensive trade-exposed retail customers of the electrical corporation, commonly known as the California Climate Credit. This bill would exclude residential customers from receiving the California Climate Credit if they are not enrolled in the CARE or FERA program and their total electricity bills for the previous year were less than \$300.

Summary: The California Fair Employment and Housing Act establishes the Civil Rights Department within the Business, Consumer Services, and Housing Agency and requires the department to, among other things, bring civil actions to enforce the act. Current law requires, on or before September 1, 2024, the Department of Technology to conduct, in coordination with other interagency bodies as it deems appropriate, a comprehensive inventory of all high-risk automated decision systems that have been proposed for use, development, or procurement by, or are being used, developed, or procured by, any state agency. This bill would generally regulate the development and deployment of an automated decision system (ADS) used to make consequential decisions, as defined. The bill would define "automated decision system" to mean a computational process derived from machine learning, statistical modeling, data analytics, or artificial intelligence that issues simplified output, including a score, classification, or recommendation, that is designed or used to assist or replace human discretionary decisionmaking and materially impacts natural persons. This bill would require a developer of a covered ADS, as defined, to take certain actions, including conduct impact assessments of the covered ADS and provide deployers to whom the developer transfers the covered ADS with certain information, including a high-level summary of the results of those impact assessments.

AB 1044 (Macedo R) Tule East Groundwater Sustainability Agency Act.

Current Text: Amended: 5/23/2025 [html](#) [pdf](#)

Introduced: 2/20/2025

Last Amend: 5/23/2025

Status: 2/2/2026-Died on inactive file.

Location: 2/2/2026-A. DEAD

Dead	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law, the Sustainable Groundwater Management Act, requires all groundwater basins designated as high- or medium-priority basins by the Department of Water Resources to be managed under a groundwater sustainability plan or coordinated groundwater sustainability plans, except as specified. The act authorizes any local agency or combination of local agencies overlying a groundwater basin to decide to become a groundwater sustainability agency for that basin. The act deems certain agencies created by statute to manage groundwater the exclusive local agencies within their respective statutory boundaries with powers to comply with the act and authorizes these agencies to opt out of being the exclusive groundwater management agency. This bill would create the Tule East Groundwater Sustainability Agency and would establish the agency's initial boundaries. The bill would authorize the boundaries of the agency to be adjusted, as specified. The bill would require the agency to elect to be a groundwater sustainability agency under the Sustainable Groundwater Management Act for that portion of the Tule Subbasin that lies within the boundaries of the agency and would require the agency to develop and implement a groundwater sustainability plan to achieve sustainable groundwater management within the territory of the agency. The bill would generally specify the powers and purposes of the agency. The bill would prescribe the composition of the 5-member board of directors of the agency and would require members and alternates to be chosen, as specified. By imposing duties on the agency and the County of Tulare, the bill would impose a state-mandated local program. The bill would deem the Tule East Groundwater Sustainability Agency the exclusive local agency with powers to comply with the Sustainable Groundwater Management Act. This bill contains other related provisions and other existing laws.

Desk	Policy	Fiscal	Floor	Dead	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The California Land Conservation Act of 1965, otherwise known as the Williamson Act, authorizes a city or county to contract with a landowner to limit the use of agricultural land to agricultural use if the land is located in an agricultural preserve designated by the city or county, as specified. The act authorizes the parties to mutually agree to rescind the contract in order to simultaneously enter into a solar-use easement if approved by the Department of Conservation, as specified. Current law defines the term "solar-use easement" for these purposes to mean any right or interest acquired by a county, or city in a parcel or parcels determined to be eligible, as provided,

where the deed or other instrument granting the right or interest imposes certain restrictions that effectively restrict the use of the land to photovoltaic solar facilities for the purpose of providing for the collection and distribution of solar energy and certain other incidental or subordinate uses or other alternative renewable energy facilities. This bill would revise the definition of the term "solar-use easement" to, among other changes, expand the authorized uses of the land under the easement to include solar energy storage and appurtenant renewable energy facilities.

Introduced: 2/21/2025

Last Amend: 7/17/2025

Status: 8/29/2025-Failed Deadline pursuant to Rule 61(a)(11). (Last location was APPR. SUSPENSE FILE on 8/18/2025)(May be acted upon Jan 2026)

Location: 8/29/2025-S. 2 YEAR

Desk	Policy	Fiscal	Floor	Desk	Policy	2 year	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Current law establishes the Shared Habitat Alliance for Recreational Enhancement (SHARE) program to encourage private landowners to voluntarily make their land available to the public for wildlife-dependent recreational activities, as specified. Current law requires a cap on financial compensation offered to a private landowner of \$30 per acre, or \$50 per public participant per day. Current law authorizes the Department of Fish and Wildlife, as part of the SHARE program, to make grants to, or enter into agreements with, nonprofit organizations, governmental entities, or any other entities for purposes of carrying out the SHARE program. This bill would require, rather than authorize, the department to make those grants to, or enter into agreements with, the above-described entities, including a nonprofit conservation organization, when the department finds the grants or agreements are necessary for carrying out the purposes of the SHARE program. The bill would increase the required cap on financial compensation offered to private landowners pursuant to the SHARE program to \$52 per acre, or \$87 per public participant per day, and would require those figures to be adjusted annually for inflation, as provided. The bill would authorize the department to reimburse a nonprofit organization, a private landowner, or other entity for its services related to the implementation of the program. The bill would repeal these provisions on January 1, 2031.

Summary: The Digital Financial Assets Law (DFAL) generally regulates digital financial asset business activity, including by prohibiting a covered person from taking certain actions with digital financial assets if that asset is a stablecoin, as defined and prescribed. The DFAL requires, among other charges, an applicant for a license to include a nonrefundable fee with an application, as specified. This bill would require the Department of Financial Protection and Innovation, in consultation with the Treasurer and the Controller, to adopt regulations to allow specified payments required under the DFAL to be made with stablecoins. The bill would require the department to submit, on or before January 1, 2029, a report to the Legislature on those regulations, as specified.

1st House				2nd House							

Summary: Current law authorizes the Governor, during a state of emergency, to suspend any regulatory statute, or statute prescribing the procedure for conduct of state business, or the orders, rules, or regulations of any state agency, if the Governor determines and declares that strict compliance with any statute, order, rule, or regulation would in any way prevent, hinder, or delay the mitigation of the effects of the emergency. Under the authority of the California Emergency Services Act, on March 1, 2025, Governor Gavin Newsom issued a proclamation of a state of emergency that suspends applicable state statutes, rules, regulations, and requirements that fall within the jurisdiction of boards, departments, and offices within the California Environmental Protection Agency or the Natural Resources Agency to the extent necessary for expediting critical fuels reduction projects, as provided. The proclamation requires an individual or entity desiring to conduct a critical fuels reduction project to request the secretary of the appropriate agency to make a determination that the proposed project is eligible for the suspension and requires the California Environmental Protection Agency and the Natural Resources Agency to maintain on their respective internet website a list of all suspensions approved. This bill would, on or before January 31, 2026, require the California Environmental Protection Agency and the Natural Resources Agency to each report to the Legislature information on the implementation of the above-described proclamation of emergency, as provided.

Dead	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Current law requires the Public Utilities Commission (PUC) to evaluate each customer renewable energy subscription program to determine if the program meets certain goals and determine whether it would be beneficial to ratepayers to establish a new tariff or program or modify an existing tariff or program to establish a community renewable energy program consistent with certain requirements, including a requirement that the program provides bill credits to subscribers based on the avoided costs of the program's facilities, as provided. Pursuant to this requirement, the PUC has adopted a community renewable energy program. This bill would revise and recast the requirements for the customer renewable energy subscription program to, among other things, specify that the avoided costs include certain avoided cost values. The bill would impose additional requirements that the program is required to meet, including requiring facilities participating in the program to have no more than 5 megawatts of generation capacity and no more than 5 megawatts of storage, and capping the total program capacity at 5 gigawatts or ending program subscription after 7 years, when either limit is first reached. The bill would require the PUC, on or before September 1, 2026, to adopt or modify the community renewable energy program to ensure consistency with certain requirements, as provided. The bill would require each community choice aggregator and electric service provider, within 180 days of the adoption or modification of the program, to notify the PUC regarding whether it will participate in the program. The bill would authorize a community choice aggregator or electric service provider to begin participating in, or end its participation in, the program at any time by notifying the PUC. The bill would require the PUC, beginning 2 years from the adoption or modification of the program, to evaluate the program to ensure consistency with the program's requirements and would require the PUC to authorize the termination or modification of the program if the PUC determines that the program does not meet those requirements.

Dead	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conc.			

Summary: Under current law, the State Water Resources Control Board and the 9 California regional water quality control boards regulate water quality and prescribe waste discharge requirements in accordance with the federal national pollutant discharge elimination system (NPDES) permit program established by the federal Clean Water Act and the Porter-Cologne Water Quality Control Act. Current law requires each regional board to formulate and adopt water quality control plans for all areas within the region, as provided. The bill would require the state board, after making the necessary residual designation authority findings, to establish a statewide commercial, industrial, and institutional NPDES order for properties with 5 acres or more of impervious surface, as provided. The bill would require the state board to publish a draft order of the statewide order for public comment on or before December 31, 2028, or 18 months after the reissuance of a specified statewide permit, as specified. The bill would require the state board to contemporaneously establish rules for offsite compliance agreements to issue with the publication of the draft statewide order for public comment that details the necessary components of an agreement between commercial, industrial, and institutional permittees and local municipalities for achieving offsite stormwater capture and use within the adopted final statewide commercial, industrial, and institutional NPDES order.

1st House				2nd House				Conc.			

Summary: Current law requires the Department of Water Resources to periodically review the groundwater sustainability plans developed by groundwater sustainability agencies pursuant to the act to evaluate whether a plan conforms with specified laws and is likely to achieve the sustainability goal for the basin covered by the plan. Current law requires a groundwater sustainability agency to evaluate its groundwater sustainability plan periodically. This bill would require a groundwater sustainability agency to, at least once every 7 years, review, and update if appropriate, its sustainable yield to ensure that the sustainable yield is based on the best available information and best available science, as defined, and will achieve sustainable groundwater management. The bill would also require a groundwater sustainability agency to provide an opportunity for public review and comment before making a determination whether to update its sustainable yield. To the extent that these requirements impose additional duties on groundwater sustainability agencies that are local agencies, the bill would impose a state-mandated local program.

1st House				2nd House				Conc.			

Summary: The California Global Warming Solutions Act of 2006 establishes the state board as the state agency responsible for monitoring and regulating sources emitting greenhouse gases and requires the state board to adopt rules and regulations to achieve the maximum technologically feasible and cost-effective greenhouse gas emission reductions from those sources. Pursuant to its authority, the state board has adopted the Advanced Clean Fleets Regulation, which imposes various requirements for transitioning local, state, and federal government fleets of medium- and heavy-duty trucks, other high-priority fleets of medium- and heavy-duty trucks, and drayage trucks to zero-

emission vehicles. Existing federal law, the Clean Air Act, prohibits any state or any political subdivision thereof from adopting or attempting to enforce any standard relating to the control of emissions from new motor vehicles or new motor vehicle engines, except through a waiver, as provided. This bill would prohibit the State Air Resources Board from enforcing any regulation that directly or indirectly compels compliance by private fleets, as provided, until the state has obtained a required waiver or authorization under the federal Clean Air Act.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA authorizes the preparation and certification of an EIR for a program, plan, policy, or ordinance, commonly known as a "program EIR," and requires a lead agency to examine later activities in the program in light of the program EIR to determine whether an additional environmental document is required to be prepared. This bill would require, on or before January 1, 2027, the State Board of Forestry and Fire Protection to update the California Vegetation Treatment Program Final Program Environmental Impact Report (FPEIR) to, among other things, expand the area that is treatable landscape under the FPEIR to portions of the state suitable for vegetation treatment consistent with the FPEIR, regardless of fire suppression responsibility designation, and recognize cultural burning conducted pursuant to a specified law as a covered treatment activity. The bill would authorize a public agency to partner with a federally recognized California Native American tribe to conduct a project under the FPEIR in the agency's jurisdiction.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA requires a lead agency that is preparing an environmental impact report, a negative declaration, or making other determinations, to provide public notice of that fact within a reasonable period of time, as provided. CEQA requires a lead agency to give notice to the last known name and address of all organizations and individuals who have previously requested notice, and to give notice by posting the notice on the internet website of the lead agency, and to give notice through one of 3 different procedures, including direct mailing to the owners and occupants of contiguous property shown on the latest equalized assessment roll. Existing law also requires, for a project involving the burning of municipal wastes, hazardous waste, or refuse-derived fuel, to give notice by direct mailing to the owners and occupants of property within 1/4 of a mile of any parcel or parcels, as specified. This bill would authorize a lead agency to satisfy the direct mailing requirements listed above by electronic mail if the recipient affirmatively requested to receive notice by electronic mail.

Summary: Existing law establishes the State Energy Resources Conservation and Development Commission and vests the commission with various responsibilities with respect to developing and implementing the state's energy policies. Existing law requires the commission to biennially adopt an integrated energy policy report, as specified, and to make the reports accessible to state, local, and federal entities and to the general public. This bill would require the commission to establish a process for the owner of a data center, as defined, to submit specified information to the commission, including, among other information, the data center's location and size, the data center's power usage effectiveness, as defined, and the quantity of fuel consumed by onsite generators or other fuel-based energy systems, as specified. The bill would require the owner of a data center to submit the required information in the manner and timeframe specified by the commission. The bill would require the commission, beginning with the 2029 integrated energy policy report, and in subsequent biennial reports, to include an assessment of electrical load trends for data centers, as provided. The bill would require the commission to annually publish the information submitted in an anonymized and aggregated format on its internet website.

1st House				2nd House				Conc.			

Summary: The State General Obligation Bond Law generally sets forth the procedures for the issuance and sale of bonds governed by its provisions and for the disbursal of the proceeds of the sale of those bonds. Existing law specifies various provisions required for inclusion in a bond act. Existing law requires any state bond measure approved on or after January 1, 2004, to be subject to an annual reporting process, with the head of the lead state agency administering the bond proceeds reporting certain information about the projects being funded to the Legislature and the Department of Finance. Existing law permits this information to be provided on the agency's internet website or the state's open data portal under certain circumstances. Existing law authorizes the costs of the report to be included in the cost of administering the bond act unless prohibited by the bond act. Existing law defines various terms for these purposes, including "board." Existing law defines "board" to mean the state board, department, or agency authorized by a bond act to request the committee to cause bonds to be issued for the purpose of creating a fund that is to be expended by the board for the purposes specified in the bond act. For any state general obligation bond measure that is approved by voters on and after January 1, 2027, this bill would require a bond act to include specified information about the objectives of the bond expenditure and related data. The bill would also require the board to post on its internet website a notification that contains, among other information, details about the programs and projects authorized to be funded by the bond. The bill would require the board to provide a short, one page, executive summary style written report to the Department of Finance, the Legislative Analyst, and specified legislative committees that contains certain information regarding the general obligation bond, in accordance with the above-described provision permitting this information to be provided on the board's internet website or the state's online data portal. The bill would require the report to include, among other information, whether the project, grant, or other expenditure of bond proceeds has been done in a timely manner.

Summary: Existing law, until January 1, 2030, generally prohibits a person from possessing, importing, shipping, or transporting in the state, or from placing, planting, or causing to be placed or planted in any water in the state, invasive mussels, and authorizes the Director of Fish and Wildlife or the director's designee to engage in various enforcement activities, including ordering the areas in conveyance that contain water be drained, dried, or decontaminated, as provided. Existing law requires a public or private agency that operates a water supply system to cooperate with the Department of Fish and Wildlife to implement measures to avoid infestation by invasive mussels and to control or eradicate any infestation that may occur in a water supply system. Existing law requires, if invasive mussels are detected, the operator of a water supply system to, in cooperation with the department, prepare and implement a plan to control or eradicate invasive mussels within the system, and eliminate or minimize any potential downstream transport of an invasive mussel. Existing law requires, on or before December 31, 2026, the department to review all approved plans and require all plans that do not specifically address all invasive mussel species known to be present in bodies of water in the state as of January 1, 2026, to be updated or revised appropriately to include all invasive mussel species, on or before September 30, 2027. Existing law requires every invasive mussel species to be addressed in a plan no later than 180 days from the date that the species is listed in a certain regulation. Existing law defines "invasive mussel" for these purposes as any nonnative detrimental mussel, as provided. This bill would prohibit a conveyance from being launched until a specified drying period has completed, as provided. By expanding the scope of a crime, this bill would impose a state-mandated local program. The bill would require the department to require water supply system operators to update their plans to address all invasive mussel species present in the operator's water system as of January 1, 2026, as provided.

Summary: Existing law establishes various protections for California Native American tribes, including prohibiting a public agency or private party using or occupying public property or operating on public property from interfering with the free expression or exercise of Native American religion as provided in the United States Constitution and the California Constitution. Existing law also requires a local government to provide formal notification to each California Native American tribe that is traditionally and culturally affiliated with the project site as an invitation to consult on the proposed project, as provided. Existing law requires the local government, during the consultation, to give deference to the tribal information, tribal knowledge and customs, and the significance of the resource to the California Native American tribe. Existing law prohibits any information, as described, that is submitted by a California Native American tribe during the environmental review process from being included in the environmental document or otherwise disclosed by the lead agency or any other public agency to the public, as specified, without the prior consent of the tribe that provided the information. This bill, the California Indian Freedom Act of 2026, would prohibit a governmental agency from substantially burdening a California Indian or California Native American tribe's exercise of religious beliefs or spiritual practices on state lands, including their access to and use of sacred sites and objects, and their ability to perform religious ceremonies and rites, even if the burden results from a rule of general applicability, unless the governmental agency demonstrates that application of the burden is in furtherance of a compelling governmental interest and is in the least restrictive means of furthering that interest.

Summary: Existing law, until January 1, 2030, generally prohibits a person from possessing, importing, shipping, or transporting in the state, or from placing, planting, or causing to be placed or planted in any water within the state, invasive mussels, and authorizes the Director of Fish and Wildlife, or the director's designee, to engage in various enforcement activities with regard to invasive mussels. Existing law, until January 1, 2030, requires a public or private agency that operates a water supply system to cooperate with the Department of Fish and Wildlife to implement measures to avoid infestation by invasive mussels and to control or eradicate any infestation that occurs in a water supply system. Existing law requires any person, or federal, state, or local agency, district, or authority that owns or manages a reservoir, where specified activities are permitted, except as specified, to develop and implement a program designed to prevent the introduction of invasive mussel species, as provided. Existing law requires any entity that discovers invasive mussels within the state to immediately report the discovery to the department. This bill would prohibit a public agency from prohibiting imported water deliveries for groundwater replenishment, as defined, due to invasive mussels if the importation complies with a specified invasive mussel control plan and unless there is substantial, documented evidence of a proven health and safety risk as a result of the invasive mussels.

Summary: Existing law makes a person who is a dealer in or collector of junk, metals, or secondhand materials, or their agent, employee, or representative, who buys or receives any wire, cable, copper, lead, solder, mercury, iron, or brass that the person knows or reasonably should know is used by or belongs to specified entities, including a railroad, certain utility companies, or a public entity engaged in furnishing public utility service, without using due diligence to ascertain that the person selling or delivering that material has a legal right to do so, guilty of criminally receiving that property and, in addition to imprisonment, makes that act punishable by a fine of not more than \$5,000. This bill would prohibit organized metal theft, described as acting in concert with one or more persons to steal metal materials from one or more of specified materials and items with the intent to sell, exchange, or return those metal materials for value, acting in concert with 2 or more persons to receive, purchase, or possess those metal materials knowing or believing it to have been stolen, acting as an agent of another to steal those metal materials as part of an organized plan to commit theft, or recruiting, coordinating, organizing, supervising, directing, managing, or financing another to undertake acts of theft of metal. The bill would make a violation of organized metal theft punishable as either a misdemeanor or a felony.

1st House				2nd House							

Summary: Existing law declares that all water within the state is the property of the people of the state, but the right to the use of the water may be acquired by appropriation in the manner provided by law. Existing law requires the appropriation to be for some useful or beneficial purpose. Existing law provides, however, that the diversion of floodflows for groundwater recharge does not require an appropriative water right if certain conditions are met, including that a local or regional agency that has adopted a local plan of flood control or has considered flood risks as part of its most recently adopted general plan has given notice, as provided, of imminent risk of flooding and inundation of lands, roads, or structures. Existing law defines "floodflow" for these purposes to include circumstances in which flows would inundate ordinarily dry areas in the bed of a terminal lake to a depth that floods dairies and other ongoing agricultural activities, or areas with substantial residential, commercial, or industrial development. Existing law applies those requirements to diversions commenced before January 1, 2029. Existing law prohibits an entity from substantially diverting or obstructing the natural flow of, or substantially changing or using any material from the bed, channel, or bank of, any river, stream, or lake, or from depositing or disposing of certain material where it may pass into any river, stream, or lake, without first notifying the Department of Fish and Wildlife of that activity, and entering into a lake or streambed alteration agreement if required by the department to protect fish and wildlife resources, except as specified. This bill would revise and recast those conditions required for the appropriative water right exemption for a diversion of floodflows for groundwater recharge, would apply the requirements to a diversion commenced before January 1, 2034, and would further exempt those diversions from the requirements of CEQA and requirements relating to lake or streambed alteration agreements, subject to conducting tribal consultation, as provided.

Summary: Existing law, until January 1, 2030, generally prohibits a person from possessing, importing, shipping, or transporting in the state, or from placing, planting, or causing to be placed or planted in any water within the state, invasive mussels, as defined. Existing law requires a public or private agency that operates a water supply system to cooperate with the Department of Fish and Wildlife to implement measures to avoid infestation by invasive mussels and to control or eradicate any infestation that may occur in a water supply system, and, if invasive mussels are detected, to prepare and implement a plan, as specified, to control or eradicate invasive mussels within the system (control plan). Existing law prohibits the importation, transportation, possession, or live release of specified wild animals, except under a revocable, nontransferable permit, known as a restricted species permit, issued by the department, in cooperation with the Department of Food and Agriculture, and only if certain requirements are met. Existing law authorizes the department to issue permits, commonly known as scientific collecting permits, to take or possess any form of plant or animal life for scientific, educational, or propagation purposes. This bill would exempt from the requirement to obtain a restricted species permit for golden mussels a public or private agency that operates a water supply system and has submitted a control plan to the department for maintenance and operational activities in the water supply system, as specified.

Summary: Existing law establishes the Office of Emergency Services within the office of the Governor and requires the office to be responsible for the state's emergency and disaster response services, as specified. Existing law requires the office, at specified intervals, to consult with, among others, the State Fire Marshal and the State Department of Public Health in order to review and update technical and operational standards for public agency systems. Existing law requires a public safety agency that provides "911" call processing services for emergency medical response to, by January 1, 2027, provide prearrival medical instructions to "911" callers requiring medical assistance, as specified. This bill would require a public safety agency described above that was not providing prearrival instructions to the "911" callers described above on or before January 1, 2026, to report to their local emergency medical services agency the status of their compliance with the above-described requirement on or before January 31, 2027.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The Habitat Restoration and Enhancement Act authorizes a project proponent to submit a habitat restoration or enhancement project to the Director of Fish and Wildlife for approval. The act requires the Department of Fish and Wildlife to assess an application fee for a project submitted to the department consistent with specified fees adopted by the department, as provided. Under the act, a habitat restoration or enhancement project is a project with the primary purpose of improving fish and wildlife habitat. The act requires the director to approve a habitat restoration or enhancement project if the director determines that specified conditions are met. Under the act, the director's approval of a habitat restoration or enhancement project is in lieu of any other permit, agreement, license, or other approval issued by the Department of Fish and Wildlife. The act makes moneys in the Habitat Restoration and Enhancement Account available to the department, upon appropriation by the Legislature, for the purposes of administering and implementing the act. Existing law repeals the act on January 1, 2027. This bill would extend the operation of the act until January 1, 2032, and would require the department to submit a report on the implementation of the act to the Legislature no later than December 31, 2029. The bill would eliminate the requirement for the application fee to be consistent with other specified fees adopted by the department and would instead authorize the department to establish a graduated schedule of fees.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The California Environmental Quality Act (CEQA) requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. CEQA requires the Office of Land Use and Climate Innovation to prepare, develop, and transmit to the Secretary of the Natural Resources Agency for certification and adoption proposed revisions to the CEQA implementation guidelines to establish criteria for determining the significance of transportation impacts of projects within transit priority areas, and requires the criteria to promote the reduction of greenhouse gas emissions, the development of multimodal transportation networks, and a diversity of land uses. CEQA requires the office to recommend potential metrics, including, among other metrics, vehicle miles traveled, to measure these transportation impacts. This bill would, except as provided, specify that a transportation project is presumed to have a less than significant transportation impact as determined by the vehicle-miles-traveled metric if at least 80% of the project lies within one or more nonmetropolitan counties.

1st House				2nd House							

Summary: Existing law requires the Public Utilities Commission, in consultation with the State Energy Resources Conservation and Development Commission, to provide transmission-focused guidance to

the Independent System Operator (ISO) about resource portfolios of expected future renewable energy resources and zero-carbon resources, including the allocation of those resources by region based on technical feasibility and commercial interest in each region to allow the ISO to identify and approve transmission facilities needed to interconnect resources and reliably serve the needs of load centers, as specified. On December 23, 2022, the PUC, the Energy Commission, and the ISO entered into a memorandum of understanding related to resource and transmission planning, transmission development and permitting, procurement, and interconnections to achieve reliability and policy needs and to coordinate the timely development of resources, resource interconnections, and needed transmission infrastructure. Existing law requires the Energy Commission and the PUC, in coordination with the ISO, every 5 years, to review the memorandum of understanding and a related workplan to ensure the memorandum and workplan reflect the coordination that is needed to help meet the state's energy goals. This bill would require those entities, on or before January 1, 2028, to update the memorandum and workplan to, among other things, ensure that the memorandum and workplan reflect the requirements of Federal Energy Regulatory Commission Order 1920-A, as applicable.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law requires a plaintiff who files an action to comprehensively determine rights to extract groundwater from a basin to provide the court a draft notice of commencement of groundwater basin adjudication and a draft form answer to adjudication complaint, as specified. Existing law also requires a plaintiff to file, within a specified timeframe, a motion for approval of the draft notice and draft form answer. Under existing law, once the court approves the draft notice, the plaintiff is required to serve the notice, as specified. Following a court order approving both the notice and draft form answer and authorizing service thereof, existing law requires the plaintiff to take additional steps to provide notice to defendants including, but not limited to, mailing, by registered mail or certified mail, return receipt requested, the notice, complaint, and form answer to all holders of fee title to real property in the basin. Under existing law, if a return receipt is not received for a parcel of real property, the plaintiff must post a copy of the notice, complaint, and form answer in a conspicuous place on the real property. After completing these notice procedures, existing law requires the plaintiff to file a notice of completion of the mailing with the court. Existing law permits a court to authorize any other procedures it finds appropriate and necessary to provide notice to persons who may hold groundwater rights in basin. This bill would impose additional requirements on a plaintiff when filing the notice of completion of mailing. The bill would require the plaintiff to include with the notice of completion an affidavit of the person who mailed the notice and the certified or registered mail delivery receipt for each parcel stating the date, time, and place of mailing. The bill would further require the notice to include as an attachment any certified or registered mail delivery receipts received as of the date of the filing.

Introduced: 2/18/2026

Status: 4/23/2026-Failed Deadline pursuant to Rule 61(b)(5). (Last location was W.,P. & W. on 4/6/2026)

Location: 4/23/2026-A. DEAD

Desk	Dead	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The California Environmental Quality Act (CEQA) requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. The Sustainable

Groundwater Management Act requires all groundwater basins designated as high- or medium-priority basins by the Department of Water Resources to be managed under a groundwater sustainability plan or coordinated groundwater plans, except as specified. Current law requires a groundwater sustainability plan to include various information relating to subsidence, as applicable. This bill would exempt from the requirements of CEQA a groundwater recharge project if the Secretary of the Natural Resources Agency determines the project would address subsidence. Because a lead agency would be required to determine whether a project qualifies for this exemption, the bill would impose a state-mandated local program.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law designates the Department of Food and Agriculture as the lead department in noxious weed management and requires the department, in cooperation with the Secretary of the Natural Resources Agency, to implement provisions relating to noxious weed management. Existing law prohibits a person from selling, distributing, or transporting into, or within, a weed-free area any seed of a noxious weed that the secretary has declared the area to be practically free from. This bill would prohibit an online marketplace, as defined, from facilitating the sale or shipment of a noxious weed for delivery to an address located in the state. The bill would authorize the Secretary of Food and Agriculture, if an employee of the department acting within the course and scope of their regular duties and using existing resources identifies a shipment of a noxious weed and determines that the shipment originated from or occurred through a transaction conducted through an online marketplace in violation of this prohibition, to provide written notice, including specified information, to the online marketplace that it may be subject to an administrative penalty for violating this prohibition. The bill would authorize the Secretary of Food and Agriculture to levy a specified administrative penalty against an online marketplace for violating this prohibition if both the online marketplace received that written notice and, after any written notice, an employee of the department acting within the course and scope of their regular duties and using existing resources identifies a shipment of a noxious weed and determines that the shipment originated from or occurred through a transaction conducted through an online marketplace in violation of this prohibition, unless the marketplace demonstrates to the department that it has implemented and maintains reasonable controls, as defined.

1st House				2nd House							

Summary: The Warren-Alquist State Energy Resources Conservation and Development Act establishes the State Energy Resources Conservation and Development Commission and prescribes the authorities, duties, and responsibilities of the commission pertaining to energy matters. This bill would require the commission, in consultation with the Governor's Office of Business and Economic Development and other relevant state agencies, to identify and designate Strategic Clean Energy and Critical Mineral Development Zones. The bill would authorize the county in which a proposed zone is located to submit a request for designation and would authorize the county board of supervisors to, by resolution, authorize the request for designation. The bill would require the commission to approve or deny a complete submission within 180 days. The bill would require a zone to consist only of

geographic areas located within the jurisdictional boundaries of the county submitting the request for designation and would require that certain criteria be satisfied, including that the zone be in an area identified by state or federal agencies as containing significant deposits or identified production potential of critical minerals used in battery, clean energy, or advanced manufacturing supply chains, as specified.

1st House				2nd House							

Summary: The California Environmental Quality Act (CEQA) requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. Existing law requires a lead agency to be responsible for determining whether the project is exempt from CEQA and whether an environmental impact report, negative declaration, or mitigated negative declaration is required, as provided. Existing law, for certain projects, establishes a ministerial review process with modified environmental assessment procedures, as provided. This bill, notwithstanding the above-described provisions relating to determinations by a lead agency, would require an environmental impact report, negative declaration, or mitigated negative declaration, as determined by the lead agency, for any project, except as provided, that includes the development, intensification, or substantial expansion of an industrial use if the project is located in or within 1/2 mile of an overburdened community, as defined. The bill would disqualify these projects from receiving a statutory exemption or ministerial review process.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law requires each electrical corporation, local publicly owned electric utility, or electrical cooperative, or any other entity that offers electrical service, except as provided, to develop a standard contract or tariff providing for net energy metering, and to make this standard contract or tariff available to eligible customer-generators using renewable electrical generation facilities, as specified. Pursuant to its authority, the Public Utilities Commission issued a decision revising net energy metering tariff and subtariffs, commonly known as the net billing tariff. Existing law authorizes an eligible customer-generator with multiple meters to aggregate the electrical load of the meters located on the property where the renewable electrical generation facility is located and on all property adjacent or contiguous to the property on which the renewable electrical generation facility is located, if those properties are solely owned, leased, or rented by the eligible customer-generator, as provided. This bill would require the commission, for purposes of certain net energy metering contracts or tariffs, to ensure that logistics businesses and manufacturing businesses are eligible customer-generators for purposes of aggregating multiple meters, as described above, if the commission extends the application of that provision.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The California Constitution specifies various requirements with respect to the levying of assessments and property-related fees and charges by a local agency. As part of those requirements, the California Constitution mandates that such fees or charges that are extended, imposed, or increased satisfy certain requirements, including, but not limited to, that the amount of the fee or charge imposed upon any parcel or person as an incident of property ownership not exceed the proportional cost of the service attributable to the parcel. Existing law, known as the Proposition 218 Omnibus Implementation Act (act), prescribes specific procedures and parameters for local jurisdictions to comply with these requirements and, among other things, authorizes an agency providing water, wastewater, sewer, or refuse collection services to adopt a schedule of fees or charges authorizing automatic adjustments that pass through increases in wholesale charges for water, sewage treatment, or wastewater treatment or adjustments for inflation under certain circumstances. This bill would authorize a local government to demonstrate the proportional cost of the service attributable to the parcel by any method that reasonably allocates the ascertainable cost of providing service to all parcels, if substantiated as provided. The bill would, however, provide that for water or sewer service fee or charge impositions, a local government is not required to provide an exact measure of the cost of the service at each parcel and may instead impose uniform or tiered rates to parcel or customer classes that are defined based on common characteristics indicative of likely water or sewer use.

Desk	Policy	Dead	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law requires the Natural Resources Agency, in collaboration with the State Air Resources Board, the California Environmental Protection Agency, the Department of Food and Agriculture, an expert advisory committee established, as provided, and other relevant state agencies, to determine an ambitious range of targets for natural carbon sequestration, and for nature-based climate solutions that reduce greenhouse gas emissions for 2030, 2038, and 2045 to support state goals to achieve carbon neutrality and foster climate adaptation and resilience. Existing law defines "nature-based climate solutions" for these purposes to mean activities, such as restoration, conservation, and land management actions, that increase net carbon sequestration or reduce greenhouse gas emissions in natural and working lands. This bill would annually appropriate the sum of \$250,000,000 from the Greenhouse Gas Reduction Fund in the annual Budget Act each fiscal year from the 2027–2028 to the 2045–46 fiscal year, inclusive, to achieve nature-based climate solutions on natural, working, and urban lands, including \$150,000,000 to be allocated to the Natural Resources Agency to fund nature-based climate solutions, as provided, and \$100,000,000 to be allocated for nature-based climate solutions at the discretion of the Legislature, as provided. The bill would additionally appropriate, after those amounts are allocated, the sum of \$150,000,000 from the Greenhouse Gas Reduction Fund in the annual Budget Act each fiscal year from the 2027–2028 to the 2045–46 fiscal year, inclusive, to the Department of Food and Agriculture to fund sustainable agricultural practices and nature-based climate solutions, as provided.

1st House				2nd House							

Summary: Existing law requires the Treasurer to invest, or deposit into banks and other financial institutions, specified state moneys designated as surplus as a part of the Pooled Money Investment Account and determined to be available for that purpose by the Pooled Money Investment Board. Existing law generally requires banks and other financial institutions to deposit with the Treasurer securities in a value at least 10% in excess of the amount deposited with the institution to be eligible to receive deposits of state funds, except as specified. This bill would create within the Pooled Money Investment Account the Community Reinvestment Account from which deposits shall be made to institutions that meet specified performance standards including verified small business lending in underserved census tracts and first-time or first-generation home buyer lending. The bill would require the Treasurer to transfer \$4 billion from the Pooled Money Investment Account to the Community Reinvestment Account. Because the moneys invested and reinvested as part of the Pooled Money Investment Account are continuously appropriated, this bill would make an appropriation. Notwithstanding the above-described securities requirement, this bill would instead require securities, for a deposit from the Community Reinvestment Account or under the Small Business Lending Time Deposit Program, to be in an amount in value of at least 90% of the amount deposited with the institution.

1st House				2nd House							

Summary: The Department of Water Resources operates the State Water Resources Development System, commonly referred to as the State Water Project. Existing law requires that construction work for a project that will put appropriated water to beneficial use be commenced, prosecuted with due diligence, and completed within the time period specified in the water right permit. Existing law authorizes the State Water Resources Control Board to extend the deadline specified in the permit to commence or complete construction work and to put appropriated water to beneficial use for good cause shown. This bill would require that the time periods for the application of water to beneficial use and for the completion of construction work for specific water right permits held by the Department of Water Resources for the operation of the State Water Project be December 31, 2046.

1st House				2nd House							

Summary: Existing law establishes in the Natural Resources Agency the Sacramento-San Joaquin Delta Conservancy. Existing law requires the conservancy to act as a primary state agency to implement ecosystem restoration in the Delta and to support efforts that advance environmental protection and the economic well-being of Delta residents. Existing law specifies the composition of the governing board of the conservancy, including 11 voting members, and requires liaison advisers to serve in an advisory, nonvoting capacity. Existing law requires the conservancy to prepare and adopt a strategic plan to achieve the goals of the conservancy and requires the strategic plan to be consistent with certain plans. Existing law authorizes the conservancy to engage in partnerships with nonprofit organizations, local public agencies, and landowners, and authorizes the conservancy to provide grants and loans to state agencies, local public agencies, and nonprofit organizations to further the goals of the conservancy. Existing law establishes the Sacramento-San Joaquin Delta Conservancy Fund in the State Treasury. Existing law makes moneys in the fund available, upon appropriation by the Legislature, for purposes of these provisions. This bill would expand the area covered by the conservancy to include the Valley and Lake, as defined. The bill would rename the conservancy the Valley, Lake, and Delta Conservancy and make conforming changes. The bill would rename the Sacramento-San Joaquin Delta Conservancy Fund the Delta Conservancy Fund and create the Valley and Lake Conservancy Fund in the State Treasury, moneys in which would be available upon appropriation by the Legislature for purposes of the conservancy in the Valley and Lake. The bill would add to the governing board one additional voting member who is appointed by the Lake County Board of Supervisors and one who is a tribal representative appointed by the Governor, subject to confirmation by the Senate. By imposing additional requirements on the Lake County Board of Supervisors, the bill would impose a state-mandated local program.

1st House				2nd House							

Summary: Current law vests the Public Utilities Commission (PUC) with regulatory authority over public utilities, including electrical corporations. Existing law requires the PUC to establish reasonable average and maximum target energization time periods, as defined, and a procedure for customers to report energization delays to the PUC, as provided. Current law requires the PUC to require an electrical corporation to take remedial actions necessary to achieve the PUC's targets. This bill would require the PUC to require each electrical corporation to meet energization timelines or targets established pursuant to the above-described provisions or by PUC order. The bill would require the PUC to impose a penalty if an electrical corporation fails to meet an energization timeline or target approved or required by the PUC, as provided. This bill would require the PUC to designate an infrastructure-constrained energization area based on objective criteria, including limited distribution or transmission infrastructure relative to available electrical capacity or projected load growth, inland or desert geography, and extended energization timelines. The bill would require the PUC to adopt rules authorizing over-the-fence transactions within infrastructure-constrained energization areas when an electrical corporation cannot reasonably meet energization targets and other specific conditions are met, as specified. The bill would require the PUC, in coordination with the State Energy Resources Conservation and Development Commission (Energy Commission) and local jurisdictions, to establish procedures to facilitate expedited development of electrical generation and energy storage facilities in infrastructure-constrained energization areas, as specified.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The Water Rights Permitting Reform Act of 1988 authorizes any person to obtain a right to appropriate water for a small domestic, small irrigation, or livestock stockpond use, as defined, upon registering the use with the State Water Resources Control Board, as prescribed, payment of a registration fee, and application of the water to reasonable and beneficial use with due diligence. This bill would extend the above-described ability to obtain a right to appropriate water to a small restoration use, as provided. The bill would define several terms for these purposes, including defining a small restoration use as a specified use of water for native fish and wildlife preservation and enhancement in connection with a project to restore, enhance, or provide habitat for native fish and wildlife, as provided. The bill would require the board to give priority to processing small restoration use registrations that are coupled with a petition for mandatory dedication to instream beneficial uses or wetlands habitat, as specified

Summary: Existing law requires the Public Utilities Commission to set resource adequacy and resource procurement obligations for load-serving entities, which include electrical corporations, electric service providers, and community choice aggregators. Existing law requires various compliance reporting for load-serving entities. This bill would require the commission, on and after January 1, 2030, when setting certain resource adequacy and resource procurement obligations for load-serving entities, to use the same capacity valuation method, as defined, to assess the reliability contribution of each resource type, as specified. The bill would require the commission, on or before January 1, 2030, to complete a process to consolidate certain plans submitted by load-serving entities into a single procurement plan, and would require the commission, when feasible, to consolidate certain compliance reporting for reliability requirements, as specified.

1st House				2nd House							

Summary: The State Water Resources Control Board and the 9 California regional water quality control boards prescribe waste discharge requirements for the discharge of stormwater by municipalities and industries in accordance with the federal national pollutant discharge elimination system (NPDES) permit program, established by the federal Clean Water Act and the Porter-Cologne Water Quality Control Act. Under existing law, the state board and the 9 regional water quality control boards issue permits for the discharge of stormwater from municipal separate storm sewer systems (MS4s). For purposes of issuing permits for the discharge of stormwater from MS4s, this bill define "commercial, industrial, or institutional site" or "CII site" as a privately owned parcel or contiguous parcels of land that are commercial, industrial, or institutional based on the appropriate county tax assessor land use codes, as specified.

Desk	Policy	Dead	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law authorizes the Public Utilities Commission to fix the rates and charges for every public utility and requires that those rates and charges be just and reasonable. This bill would require the commission to require every electrical corporation or gas corporation, as part of every general rate case application, to submit an inflation-constrained rate case scenario in which cumulative increases in

annual expenditures proposed to be authorized in that proceeding do not exceed the projected federal social security beneficiary cost-of-living adjustment, and to compare that inflation-constrained rate case scenario with the primary rate case plan submitted by the corporation. The bill would authorize the commission to authorize expenditures in excess of the inflation-constrained rate case scenario if it determines that the electrical corporation or gas corporation has provided clear and convincing evidence that a higher level of expenditures is necessary to ensure the safe and reliable operation of its electrical system or gas system.

Summary: Existing law vests the Public Utilities Commission with regulatory authority over public utilities, including electrical corporations. Existing law authorizes the commission to fix the rates and charges for every public utility and requires that those rates and charges be just and reasonable. Existing law authorizes the commission to investigate a single rate, classification, rule, contract, practice, or the entire schedule of rates, classifications, rules, contracts, and practices, of any public utility, and to establish new rates, classifications, rules, contracts, practices, or schedules. This bill would require the commission, on or before January 1, 2028, in a new or existing proceeding, to provide for a classification of retail electricity consumers that are data centers that is separate and distinct from classifications of service for other commercial or industrial retail electricity consumers and has its own tariff, as specified. The bill would specify that an electrical corporation and a data center are not required to use the above-described classification of service if the commission has not approved the electrical corporation's tariff for that classification of service. This bill would require each electrical corporation to file a transmission and distribution tariff and a generation service tariff that meet certain requirements, as specified. The bill would also require each community choice aggregator or electric service provider to adopt a tariff for generation service consistent with certain requirements, as specified.

1st House				2nd House							

Summary: Under existing law, the Porter-Cologne Water Quality Control Act, the State Water Resources Control Board and the California regional water quality control boards are the principal state agencies with authority over matters relating to water quality. The act requires the state board to formulate and adopt state policies for water quality control and requires the regional boards to adopt regional water quality control plans in compliance with the state policies. Under the act, the state board and the regional boards prescribe waste discharge requirements for the discharge of waste that could affect the quality of the waters of the state. This bill would require the State Water Resources Control Board to require the regional boards to update the Irrigated Lands Regulatory Program in order to reduce nitrogen waste discharges from commercial irrigated agricultural areas, as provided. The bill would require the regional boards to adopt revised orders with waste discharge requirements on or before January 1, 2028, that are sufficient to meet certain reductions in nitrogen waste discharges. The bill would require the state board to, on or before July 1, 2027, publish both a list of standardized crop names and categories, and a statewide methodology for calculating, and field-level reporting of, nitrogen balances for croplands, including nitrogen fertilizer applications and nitrogen discharges, that account for available soil nitrogen, to be used by the regional boards and incorporated into the revised orders.

1st House				2nd House							

Summary: Existing law requires the Public Utilities Commission to adopt a process for each load-serving entity, as defined, to file an integrated resource plan, adopt a schedule for periodic updates to the plan, and ensure each load-serving entity takes specified actions, as specified. Existing law requires the commission to determine if there is a need for the procurement of eligible energy resources, as described, requires the commission to specify the eligible energy resources that should be procured to meet that need, and authorizes the commission, within 6 months of making that determination, to request the Department of Water Resources to procure those specified resources that meet the portfolio of resources, as specified. Existing law authorizes the department to procure those resources pursuant to that request only before January 1, 2035, as provided. Existing law authorizes the department to procure resources from a pump hydroelectric facility pursuant to these provisions if the pump hydroelectric facility does not exceed 500 megawatts and was directly appropriated funding by the state before January 1, 2023. This bill would eliminate the requirement that a pump hydroelectric facility be directly appropriated funding by the state before January 1, 2023, in order for the department to procure resources from the facility.

Summary: Existing law vests the Public Utilities Commission with regulatory authority over public utilities, including electrical corporations. Existing law requires the commission, if it determines that the rules, practices, equipment, appliances, facilities, or service of a public utility, or the methods of manufacture, distribution, transmission, storage, or supply used by the public utility, are unjust, unreasonable, unsafe, improper, inadequate, or insufficient, to determine and fix the rules, practices, equipment, appliances, facilities, service, or methods to be observed, furnished, constructed, enforced, or employed. This bill would, within one year following the adoption of each transmission plan produced by the Independent System Operator through the transmission planning process, or a successor process, and within one year following the execution of a generator interconnection agreement, require each large electrical corporation, as defined, that is assigned or obligated to construct a project that requires approval by the commission to initiate permitting for the project by filing an application or other notice, as applicable, pursuant to a specific general order of the commission. The bill would authorize a large electrical corporation to request an extension of the filing deadline by demonstrating good cause, as described, in a written notice to the commission, as provided. If a large electrical corporation fails to adhere to these timelines, or to make a timely extension request, the bill would require the commission to take appropriate enforcement action, as specified.

1st House				2nd House							

Summary: Existing law establishes the Department of Water Resources within the Natural Resources Agency and vests it with various powers and duties related to water. Existing law requires the State Water Resources Control Board to administer a water rights program pursuant to which the board grants and revokes permits and licenses to appropriate water. Existing law authorizes any person who has an urgent need to divert and use water to apply for, and authorizes the board to issue, a conditional, temporary permit, as prescribed. Existing law finds and declares that the California Council on Science and Technology (CCST) was organized as a nonprofit corporation at the request of the Legislature for the specific purpose of offering expert advice to the state government on public policy issues significantly related to science and technology. This bill would, on or before January 1, 2028, require the Department of Water Resources, in consultation with the State Water Resources Control Board and the Department of Fish and Wildlife, to select 2 watersheds that are within, or drain into, the Central Valley to conduct a watershedwide water availability study. The bill would, subject to an appropriation by the Legislature, request CCST to, in consultation with the Department of Water Resources and the board, undertake and complete a comprehensive study of water availability in the selected watersheds. The bill would require the study to, among other things, determine daily flow rates in rivers, streams, and creeks in the watersheds over the past 30 years to the extent data is available.

Desk	Policy	Dead	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing federal law establishes the federal Sentinel Landscapes Partnership, as part of which the United States Secretary of Defense, in coordination with the United States Secretary of Agriculture, the United States Secretary of the Interior, and the heads of other federal departments and agencies that elect to become full partners in the program, are authorized to establish and carry out a program to preserve and restore sentinel landscapes. Existing federal law authorizes federal departments and agencies to give to any eligible owner or manager of land within a designated sentinel landscape priority consideration for participation in any easement, grant, or assistance program and to coordinate actions between their departments and agencies and with other federal, state, interstate, and local agencies, Indian tribes, and private entities. Existing federal law defines "sentinel landscape" as a landscape-scale area encompassing one or more military installations or state-owned National Guard installations and the publicly and privately owned lands that serve to protect and support the rural economy, the natural environment, outdoor recreation, and the national defense missions of a military installation or state-owned National Guard installation. This bill would enact the California Sentinel Landscapes Act and would require the Natural Resources Agency to designate a Sentinel Landscapes Program Manager to coordinate state participation in the federal Sentinel Landscapes Partnership, as prescribed. The bill would require state agencies that have conservation grant or easement authority, to the extent feasible and consistent with their existing statutory authority, to cooperate with the Sentinel Landscapes Program Manager. This bill would authorize the Wildlife Conservation Board to provide grants for habitat protection, restoration, and

enhancement projects that are located within a federally designated sentinel landscape, as prescribed.

Summary: Existing law authorizes the State Water Resources Control Board to adopt regulations requiring measurement and reporting of water diversion and use by persons, including, among others, those authorized to appropriate water under a permit, a license, a registration for small domestic, small irrigation, or livestock stockpond use, or a certificate for livestock stockpond use. For the initial regulations, existing law requires that they be adopted as emergency regulations and provides that the emergency regulations remain in effect until revised by the state board. Existing law also exempts the initial regulations from the California Environmental Quality Act. This bill would require, until January 1, 2032, that all further regulations adopted by the state board pursuant to these provisions be adopted as emergency regulations and remain in effect until revised by the state board, and would exempt them from the California Environmental Quality Act.

1st House				2nd House							

Summary: Existing law vests the State Energy Resources Conservation and Development Commission with the exclusive jurisdiction to certify thermal powerplants with a generating capacity of 50 megawatts or more. This bill would require the Energy Commission, on or before January 1, 2028, to prepare, as provided, a comprehensive assessment of the potential role for advanced nuclear technologies in supporting critical infrastructure in California, and of the potential for new, in-state nuclear powerplants to cost-effectively meet statewide needs for new electricity resources, and to meet the expressed policy of the state described above. The bill would authorize the Energy Commission to update the assessment as appropriate. The bill would authorize the Energy Commission, the Public Utilities Commission, the Independent System Operator, and other public agencies to evaluate the potential of nuclear energy to meet long-term resource needs.

1st House				2nd House							

Summary: Existing law requires the State Energy Resources Conservation and Development Commission to submit an assessment to the Legislature, on or before January 1, 2024, and every 3 years thereafter, regarding transportation fuels in the state. Existing law requires that the first assessment submitted after January 1, 2026, evaluate the cost and supply impacts of allowing the sale of gasoline with alternative specifications to support a reliable and affordable supply of transportation fuels in California, and, if the evaluation finds that allowing the sale of gasoline with alternative specifications is likely to support a reliable and affordable supply of transportation fuels in California, requires the commission, in coordination with the State Air Resources Board, to recommend a strategy to facilitate the sale of gasoline with those alternative specifications that considers, among other things, the use of a fee associated with the sale of gasoline with those alternative specifications to mitigate for any increase in emissions. This bill would require the commission to triennially submit that assessment on or before July 1, rather than January 1, and would require that the commission's recommended strategy's discussion of that fee include recommendations regarding the appropriate fee amount to protect consumers from price impacts and avoid market disruptions.

Summary: Existing law establishes in the Natural Resources Agency the Department of Water Resources. Existing law vests in the department powers, duties, purposes, responsibilities, and jurisdiction in matters pertaining to water or dams. Existing law declares the responsibility of the state to assist local governments in providing certain essential services and facilities where water resource construction projects financed, in whole or in part, by the state or by the state jointly with the federal government create an undue burden on a local area's ability to provide these services and facilities. Existing law, the California Safe Drinking Water Act, requires the State Water Resources Control Board to administer provisions relating to the regulation of drinking water to protect public health. Existing law declares it to be the established policy of the state that every human being has the right to safe, clean, affordable, and accessible water adequate for human consumption, cooking, and sanitary purposes. This bill would establish in the State Treasury the Water Affordability and System Stabilization Fund for holding the principal and income of the Water Affordability and System Stabilization Trust, which the bill would create.

1st House				2nd House							

Summary: Current law establishes the Office of Land Use and Climate Innovation in the Governor's office for the purpose of serving the Governor and the Governor's cabinet as staff for long-range planning and research and constituting the comprehensive state planning agency. Current law authorizes a local agency to finance infrastructure projects through various means, including by authorizing a city or county to establish an enhanced infrastructure financing district to finance public capital facilities or other specified projects of communitywide significance that provide significant benefits to the district or the surrounding community. This bill would require the office, upon appropriation by the Legislature, to establish the Infrastructure Gap-Fund Program to provide grants to local agencies for the development and construction of infrastructure projects, as defined, facing unforeseen costs after starting construction. The bill would authorize the office to provide funding for up to 20% of a project's additional projected cost, as defined, after the project has started construction, subject to specified conditions, including, among other things, that the local agency has allocated existing local tax revenue for at least 45% of the initially budgeted total cost of the infrastructure project. When applying to the program, the bill would require the local agency to demonstrate challenges with completing the project on time and on budget and how the infrastructure project helps meet state and local goals, as specified.

1st House				2nd House							

Summary: The Safe Drinking Water, Wildfire Prevention, Drought Preparedness, and Clean Air Bond Act of 2024, approved by the voters as Proposition 4 at the November 5, 2024, statewide general election, authorized the issuance of bonds in the amount of \$10,000,000,000 pursuant to the State General Obligation Bond Law to finance projects for safe drinking water, drought, flood, and water resilience, wildfire and forest resilience, coastal resilience, extreme heat mitigation, biodiversity and nature-based climate solutions, climate-smart, sustainable, and resilient farms, ranches, and working lands, park creation and outdoor access, and clean air programs. The act makes \$135,000,000 available, upon appropriation by the Legislature, to the Office of Emergency Services for a wildfire mitigation grant program to provide, among other things, loans, direct assistance, and matching funds for projects that prevent wildfires, increase resilience, maintain existing wildfire risk reduction projects, reduce the risk of wildfires to communities, or increase home or community hardening. The act provides that eligible projects include, but are not limited to, grants to local agencies, state agencies, joint powers authorities, tribes, resource conservation districts, fire safe councils, and nonprofit organizations for structure hardening of critical community infrastructure, wildfire smoke mitigation, evacuation centers, including community clean air centers, structure hardening projects that reduce the risk of wildfire for entire neighborhoods and communities, water delivery system improvements for fire suppression purposes for communities in very high or high fire hazard areas, wildfire buffers, and incentives to remove structures that significantly increase hazard risk. This bill would include in the list of eligible projects grants to the above-mentioned entities for improvements to public evacuation routes in very high and high fire hazard severity zones, mobile rigid dip tanks, as defined, to support firefighting efforts, prepositioned mobile rigid water storage, as defined, and improvements to the response and effectiveness of fire engines and helicopters.

Summary: Existing law establishes the State Energy Resources Conservation and Development Commission and prescribes the authorities, duties, and responsibilities of the commission pertaining to energy matters. Existing law requires the commission, on or before January 1, 2019, in consultation with the Contractors State License Board, local building officials, and other stakeholders, to approve a plan that promotes compliance with specified regulations relating to building energy efficiency standards in the installation of central air-conditioning and heat pumps, as specified. Existing law authorizes the commission to adopt regulations to increase compliance with permitting and inspection requirements for central air-conditioning and heat pumps, and associated sales and installations, consistent with the above-described plan. This bill would establish various requirements and authorizations for the installation of a residential heat pump water heater or heat pump HVAC system, as defined, by, among other things, requiring a city, county, or city and county, beginning July 1, 2027, to adopt and offer asynchronous inspections for installations that do not require a licensed contractor and building inspector to be simultaneously present during the inspection. The bill would additionally require a city, county, or city and county, except as specified, to post specific information online, and on or before July 1, 2028, to implement an online automated permitting process for the installation of a residential heat pump water heater or residential heat pump HVAC system that issues permits in real time to a licensed contractor that meets certain criteria.

Summary: Current law establishes the State Department of Public Health and sets forth its powers and duties pertaining to, among other things, protecting, preserving, and advancing public health. Current law requires the department, in consultation with specified stakeholders, to develop a plan, addressing specified issues, with recommendations and guidelines for counties to use in the case of a significant air quality event caused by wildfires or other sources. This bill, the Wildfire Smoke and Health Outcomes Data Act, would require the State Department of Public Health, in consultation with the Department of Forestry and Fire Protection and the Wildfire and Forest Resilience Task Force, to create, operate, and maintain a statewide integrated wildfire smoke and health data platform on or before July 1, 2028, that, among other things, would integrate wildfire smoke and health data from multiple databases. Under the bill, the purposes for the data platform would include providing adequate information to understand the negative health impacts on California's population caused by wildfire smoke and evaluating the effectiveness of investments in forest health and wildfire mitigation on health outcomes in California.

Summary: The California Environmental Quality Act (CEQA) requires a lead agency to prepare a mitigated negative declaration for a project that may have a significant effect on the environment if revisions in the project would avoid or mitigate that effect and there is no substantial evidence that the project, as revised, would have a significant effect on the environment. Under current law, the recommendation, continuous evaluation, and execution of statewide environmental goals, policies, and plans are included within the scope of the executive functions of the Governor. Current law establishes the Office of Land Use and Climate Innovation in the Governor's office for the purpose of serving the Governor and the Governor's cabinet as staff for long-range planning and research and constituting the comprehensive state planning agency. This bill would require, on or before July 1, 2027, the Office of Land Use and Climate Innovation to consult with regional, local, state, and federal agencies to develop a technical advisory on thresholds of significance for greenhouse gas and noise pollution effects on the environment to assist local agencies. The bill would require the technical advisory to provide suggested thresholds of significance for all areas of the state, as specified, and would provide that lead agencies may elect to adopt these suggested thresholds of significance. The bill would also require the Office of Land Use and Climate Innovation to post the technical advisory on its internet website.

Summary: The California Environmental Quality Act (CEQA) requires the Office of Land Use and Climate Innovation, formerly named the Office of Planning and Research, to prepare and develop, and the Secretary of the Natural Resources Agency to certify and adopt, guidelines for the implementation of CEQA. The CEQA guidelines require a lead agency, immediately after deciding that an environmental impact report is required for a project, to send a notice of preparation stating that an environmental impact report will be prepared to the office and each responsible and trustee agency, as specified. This bill would require the office to conduct a study to, among other things, evaluate how locked-in guidelines could impact regulatory certainty for future project proponents, lead agencies, and stakeholders and assess how locked-in guidelines could affect the speed and efficiency of the environmental review process pursuant to CEQA. The bill would define "locked-in guidelines" as CEQA guidelines, that are in effect at the time of the first issuance of the notice of preparation for a project, that apply to the project throughout the course of the environmental review process pursuant to CEQA, regardless of changes in the guidelines that occur after the first issuance of the notice of preparation. The bill would require, on or before January 1, 2027, the office to submit a report to the Governor and the Legislature on the study. The bill would repeal these provisions on January 1, 2028.

Summary: Current law requires electrical corporations, electrical cooperatives, and local publicly owned electric utilities to construct, maintain, and operate their electrical lines and equipment in a manner that will minimize the risk of catastrophic wildfire, as specified. Current law requires electrical corporations to annually prepare and submit wildfire mitigation plans to the Office of Energy Infrastructure Safety for review and approval. Current law also requires local publicly owned electric utilities and electrical cooperatives to annually prepare wildfire mitigation plans and submit the plans to the California Wildfire Safety Advisory Board, as specified. Current law requires that each wildfire mitigation plan include, among other things, a description of the preventive strategies and programs to minimize the risk of its electrical lines and equipment causing catastrophic wildfires, and a description of the appropriate and feasible procedures for notifying a customer who may be impacted by the deenergizing of electrical lines, as provided. This bill would require the commission, on or before January 1, 2027, to update a general order to require each electrical corporation to remove all permanently abandoned facilities, as specified. The bill would require an electrical corporation, for areas affected by wildfire that require electrical distribution infrastructure to be rebuilt, to consider the undergrounding of electrical distribution infrastructure if it is determined to be cost effective compared to other wildfire mitigation strategies.

Summary: Would establish the Water Rate Assistance Program. As part of the program, the bill would establish the Water Rate Assistance Fund in the State Treasury, available upon appropriation by the Legislature, to provide water affordability assistance, for both residential water and wastewater services, to low-income residential ratepayers, as specified. The bill would require the state board to take various actions in administering the fund, including, among other things, tracking and managing revenue in the fund separately from all other revenue. The bill would require the State Water Resources Control Board, in consultation with relevant agencies and after a public hearing, to adopt guidelines for implementation of the program and to adopt an annual report to be posted on the state board's internet website identifying how the fund has performed, as specified. The bill would require the guidelines to include minimum requirements for eligible systems, including the ability to confirm eligibility for enrollment through a request for self-certification of eligibility under penalty of perjury. By expanding the crime of perjury, the bill would impose a state-mandated local program. The bill would require the state board to take various actions in administering the program, including, but not limited to, providing guidance, oversight, and funding for low-income rate assistance for residential ratepayers of eligible systems. The bill would authorize the Attorney General, at the request of the state board, to bring an action in state court to restrain the use of any method, act, or practice in violation of these provisions, except as provided. The bill would make the implementation of all of these provisions contingent upon an appropriation by the Legislature.

1st House				2nd House							

Summary: Current law provides for the establishment of an Independent System Operator (ISO) as a nonprofit public benefit corporation and requires the ISO to ensure efficient use and reliable operation of the electrical transmission grid consistent with achieving planning and operating reserve criteria no less stringent than those established by the Western Electricity Coordinating Council and the North American Electric Reliability Council. The Clean Energy and Pollution Reduction Act of 2015 provides for the transformation of the ISO into a regional organization, with the approval of the Legislature, pursuant to a specified process. That process provides that modifications to the ISO's governance structure, through changes to its bylaws or other corporate governance documents, will not become effective until the ISO, the Public Utilities Commission (PUC), the State Energy Resources Conservation and Development Commission (Energy Commission), the State Air Resources Board (state board), the Governor, and the Legislature take specified actions on or before January 1, 2019. This bill would delete the above-described provisions providing for the transformation of the ISO into a regional organization. The bill would authorize the ISO and the electrical corporations that are participating transmission owners whose transmission systems are operated by the ISO to use voluntary energy markets governed by an independent regional organization, only if specified requirements are satisfied. The bill would authorize the ISO, on or after January 1, 2028, to implement tariff modifications accepted by the Federal Energy Regulatory Commission to operate the energy markets whose rules are governed by an independent regional organization if the governing board of the ISO adopts a resolution, as specified, finding that each of the specified requirements have been, or will be, adopted by the independent regional organization.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Current law requires the Office of Child Abuse Prevention in the State Department of Social

Services to use federal funding to undertake specified activities, including, among other things, supporting coordination and sharing of best practices implemented by family resource centers with other agencies, when the best practices reflect strategies and outcomes that were achieved and supported by evidence-informed programs and data. Current law authorizes a county to establish a child abuse multidisciplinary personnel team within that county to allow provider agencies to share confidential information in order for provider agencies to investigate reports of suspected child abuse or neglect, as specified, or for the purpose of child welfare agencies making a detention determination. Current law specifies that the multidisciplinary personnel team may include a representative of a local child abuse prevention council or family-strengthening organization, including, but not limited to, a family resource center. Current law defines "family resource center," for purposes of these provisions. This bill would instead define "family resource center" to mean a family-friendly entity serving as a hub for multigenerational, family-centered, and family-strengthening support services that are provided at no cost or low cost to participants, embedded in communities, culturally sensitive, reflective of, and responsive to, community needs and interests, build communities of peer support for families, and include cross-system collaboration to assist in transforming families and communities through reciprocity, development of social connections that reduce isolation and stress, and asset development based on impact-driven and evidence-informed approaches with the goal of preventing child abuse and neglect and strengthening children and families.

	1st House				2nd House						

Summary: Current law requires each electrical corporation to annually prepare a wildfire mitigation plan and to submit the plan to the Office of Energy Infrastructure Safety for review and approval, as specified. Current law requires a wildfire mitigation plan of an electrical corporation to include, among other things, protocols for deenergizing portions of the electrical distribution system that consider the associated impacts on public safety, and protocols related to mitigating the public safety impacts of those protocols, including impacts on critical first responders and on health and communications infrastructure. Current law requires a wildfire mitigation plan of an electrical corporation to also include appropriate and feasible procedures for notifying a customer who may be impacted by the deenergizing of electrical lines and requires these procedures to consider the need to notify, as a priority, critical first responders, health care facilities, and operators of telecommunications infrastructure with premises within the footprint of a potential deenergization event. This bill would require, consistent with the above-described protocols, an electrical corporation to immediately notify, when possible and at the time a decision to conduct a deenergization event is made, public safety partners about the potential public safety impacts of the deenergization event, as specified. The bill would require detailed status information on restoration efforts to be made available to emergency management organizations, public safety officials, customers, and the public, where feasible, with regular progress updates issued at intervals of no more than 12 hours, for all impacted circuits, as specified. The bill would require, in advance of a deenergization event, an electrical corporation to make a reasonable effort to publish and make available weather conditions observed within the affected circuit being considered for deenergization, as provided.

Summary: The State Water Resources Control Board and the 9 California regional water quality control boards regulate water quality and prescribe waste discharge requirements in accordance with the Porter-Cologne Water Quality Control Act (act) and the National Pollutant Discharge Elimination System (NPDES) permit program. Under the act, the State Water Resources Control Board is authorized to adopt water quality control plans for waters for which quality standards are required by the federal Clean Water Act, as specified, and that in the event of a conflict, those plans supersede regional water quality control plans for the same waters. This bill would authorize the state board to adopt water quality control plans for nexus waters, which the bill would define as all waters of the state that are not also navigable, except as specified. The bill would require any water quality standard that was submitted to, and approved by, or is awaiting approval by, the United States Environmental Protection Agency or the state board that applied to nexus waters as of May 24, 2023, to remain in effect, as provided.

Summary: The California Environmental Protection Agency is required to oversee the development of a registry for greenhouse gas emissions that result from the water-energy nexus using the best available data. Current law provides that participation in the registry is voluntary and open to any entity conducting business in the state. Existing law authorizes the agency to enter into a contract with a qualified nonprofit organization to do specified things, including to recruit broad participation in the registry from all economic sectors and regions of the state. Current law limits the term of the term of the contract to 3 years, except as provided. This bill would instead require the agency to oversee the administration of the above-described registry and would authorize the agency to enter into a new contract, limited to a term of 3 years and with a total budget of \$2,000,000, to do specified things, including to recruit broad participation in the registry from all economic sectors and regions of the state to meet the different needs of water users throughout the state by various means, as provided.

Desk	Policy	Fiscal	Floor	Desk	Dead	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law establishes a workers' compensation system, administered by the Administrative Director of the Division of Workers' Compensation, to compensate an employee, as defined, for injuries sustained in the course of employment. Existing law provides that an injury may be either "specific," occurring as the result of one incident or exposure that causes disability or need for

medical treatment, or “cumulative,” occurring as repetitive mentally or physically traumatic activities extending over a period of time, the combined effect of which causes any disability or need for medical treatment. Existing law exempts an employee hired outside of this state and their employer from the occupational disease and cumulative injury provisions of this state’s workers’ compensation laws if (1) the employee is a professional athlete, defined for purposes of these provisions to include an athlete who is employed at the minor or major league level in the sport of baseball, basketball, football, ice hockey, or soccer, (2) that professional athlete is temporarily within this state doing work for their employer, and (3) the employer has furnished workers’ compensation insurance under the laws of the state other than California that covers the professional athlete’s employment while in this state, except as specified. Existing law deems a professional athlete to be temporarily within the state doing work for their employer if, during the 365 consecutive days immediately preceding the professional athlete’s last day of work for the employer within the state, the professional athlete performs less than 20% of their duty days, as defined, in the state. This bill would revise and recast the above provisions to state that the professional athlete and their employer are exempt from the workers’ compensation system for any claim that involves occupational disease or cumulative injury made by the athlete, if the athlete did not perform any work in California or the athlete was temporarily within the state working for their employer.

Summary: Existing law, the California Emergency Services Act, establishes the California Cybersecurity Integration Center within the Office of Emergency Services to serve as the central organizing hub of state government’s cybersecurity activities and to coordinate information sharing with various entities. Existing law also requires the Technology Recovery Plan element of the State Administrative Manual to ensure the inclusion of cybersecurity strategy incident response standards for each state agency to secure its critical infrastructure controls and information, as prescribed. This bill would require, on or before July 1, 2026, an operator, defined as a state agency responsible for operating, managing, overseeing, or controlling access to critical infrastructure, that deploys a covered artificial intelligence (AI) system, as defined, to establish a human oversight mechanism that ensures a human monitors the system’s operations in real time and reviews and approves any plan or action proposed by the covered AI system before execution, except as provided. The bill would require the Department of Technology to develop specialized training in AI safety protocols and risk management techniques to oversight personnel. The bill would require oversight personnel for an operator to conduct an annual assessment of its covered AI systems, as specified, and to submit a summary of the findings to the department. The bill would make findings and declarations related to its provisions. This bill contains other related provisions and other existing laws.

1st House				2nd House							

Summary: Existing law, the Sacramento-San Joaquin Delta Reform Act of 2009, declares that the Sacramento-San Joaquin Delta (Delta) is a critically important natural resource for California and the nation and it serves as both the hub of the California water system and the most valuable estuary and wetland ecosystem on the west coast of North and South America. Existing law establishes in the Natural Resources Agency the Department of Water Resources (department). Existing law requires the department and the Department of Fish and Wildlife to determine the principal options for the Delta and requires the department to evaluate and comparatively rate each option for its ability to do specified things, including, among others, to maintain Delta water quality for Delta users, and to preserve, protect, and improve Delta levees. Existing law establishes in the agency the Sacramento-San Joaquin Delta Conservancy. Existing law requires the conservancy to act as a primary state agency to implement ecosystem restoration in the Delta and to support efforts that advance environmental protection and the economic well-being of Delta residents. Existing law provides for the preservation of specified management areas of the Suisun Marsh, pursuant to a protection plan prepared and adopted by the San Francisco Bay Conservation and Development Commission, as provided. Existing law establishes the Delta Stewardship Council, and requires the council to develop, adopt, and implement a comprehensive long-term management plan for the Delta, known as the Delta Plan, as provided. Existing law requires the department, upon appropriation, to reimburse an eligible local agency for costs incurred for the maintenance or improvement of specified levees, in an amount not to exceed 75% of costs incurred in excess of a set amount per mile, as provided. This bill would require the department to reimburse 100% of the excess costs if a local agency demonstrates economic hardship and the reimbursement is for a project that addresses a threat to life, property, water supply, or habitat.

Desk	Dead	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The Administrative Procedure Act governs the procedures for the adoption, amendment, or repeal of regulations by state agencies and for the review of those regulatory actions by the Office of Administrative Law. Existing law requires a state agency proposing to adopt, amend, or repeal an administrative regulation to, among other things, assess the potential for adverse economic impact on California business enterprises and individuals, and requires a state agency proposing to adopt, amend, or repeal a major regulation on or after November 1, 2013, to prepare and submit to the Department of Finance for comment, a standardized regulatory impact analysis, as provided. Existing law defines "major regulation" for purposes of the act to mean any proposed adoption, amendment, or repeal of a regulation subject to review by the office that will have an economic impact on California business enterprises and individuals in an amount exceeding \$50,000,000, as provided. Existing law establishes procedures for the adoption of emergency regulations, including requiring that the state agency make a finding that the adoption of a regulation or order of repeal is necessary to address an emergency, as defined. Under existing law, a regulation, amendment, or order of repeal adopted as an emergency regulatory action may only remain in effect for up to 180 days, unless the adopting agency complies with specified requirements. This bill, the Restoring Accountability Act, would prohibit a state agency from taking final action to adopt a major regulation until certain requirements are met, including that after the state agency prepares a standardized regulatory impact analysis and submits the analysis to the Department of Finance, as described above, the state agency submits a proposal to the Legislature recommending legislation to authorize the adoption of the major regulation and the Legislature enacts a law expressly authorizing the state agency to adopt that major regulation. The bill, notwithstanding that prohibition, would authorize a state agency to adopt an emergency regulation that is a major regulation if the state agency complies with specified requirements governing the adoption of emergency regulations.

Summary: The Municipal Water District Law of 1911 provides for the formation of municipal water districts and grants to those districts specified powers. Current law permits a district to acquire, control, distribute, store, spread, sink, treat, purify, recycle, recapture, and salvage any water for the beneficial use of the district, its inhabitants, or the owners of rights to water in the district. Current law, upon the request of certain Indian tribes and the satisfaction of certain conditions, requires a district to provide service of water at substantially the same terms applicable to the customers of the district to the Indian tribe's lands that are not within a district, as prescribed. Current law also authorizes a district, until January 1, 2027, under specified circumstances, to apply to the applicable local agency formation commission to provide this service of water to Indian lands, as defined, that are not within the district and requires the local agency formation commission to approve that application. This bill would extend the above provisions regarding the application to the applicable local agency formation commission to January 1, 2032.

1st House				2nd House							

Summary: This bill would require the Department of Water Resources , in procuring electricity to serve all state agencies, to consider portfolio diversity, resource type, location, and hours of typical peak operation. The bill would expand the scope of the department's authorization to defer the procurement of those resource quantities to apply to an existing contract to procure fossil generation entered into before January 1, 2011, rather than January 1, 2010. The bill would authorize, on and after January 1, 2036, excess procurement, as defined, of eligible renewable energy resources and zero-carbon resources in one year to be applied to any subsequent year's obligation, as provided.

Desk	Policy	Dead	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Would require the Public Utilities Commission to establish a special rate structure for data centers, as defined, taking transmission level electrical service with an estimated peak demand of at least 75 megawatts of electricity to, among other things, protect other customers of electrical corporations, prohibit cost shifts to those other customers, and require data centers to pay for the electrical corporations' upfront costs of transmission or distribution infrastructure upgrades necessary for the provision of electrical service to the data centers. The bill would require the construction of data centers subject to the special rate structure to comply with certain labor requirements.

Status: 5/14/2026-Failed Deadline pursuant to Rule 61(b)(8). (Last location was APPR. SUSPENSE FILE on 4/27/2026)

Location: 5/14/2026-S. DEAD

Desk	Policy	Dead	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The Administrative Procedure Act (APA) governs the procedures for the adoption, amendment, or repeal of regulations by state agencies and for the review of those regulatory actions by the Office of Administrative Law (OAL). The APA requires a state agency proposing to adopt, amend, or repeal an administrative regulation to, among other things, assess the potential for adverse economic impact on California business enterprises and individuals, and requires a state agency proposing to adopt, amend, or repeal a major regulation to prepare and submit to the Department of Finance for review, a standardized regulatory impact analysis, as provided. The APA defines "major regulation," for purposes of the act, to mean any proposed adoption, amendment, or repeal of a regulation subject to review by the OAL that will have an economic impact on California business enterprises and individuals in an amount exceeding \$50,000,000, as provided. The APA provides exceptions for emergency regulations in the case of a situation that calls for immediate action to avoid serious harm to the public peace, health, safety, or general welfare. This bill would prohibit a major regulation from taking effect until submission to, and expiration of a 60-day review period by, the Legislature, except as provided for emergency regulations. The bill would, prior to the expiration of the 60-day review period, require the Legislature to hold an informational hearing on the major regulation.

Summary: Existing law requires every public utility to furnish and maintain adequate, efficient, just, and reasonable service, instrumentalities, equipment, and facilities, as are necessary to promote the safety, health, comfort, and convenience of its customers, its employees, and the public. This bill would require the Public Utilities Commission, on or before January 1, 2028, to adopt standards for an electrical or gas corporation's use of artificial intelligence models, as provided. The bill would require the commission to direct an electrical or gas corporation to file a plan that demonstrates the corporation's compliance with those standards. The bill would authorize the commission to prohibit an electrical or gas corporation's use of an artificial intelligence model if the commission finds that deployment of the artificial intelligence model would negatively impact the provision of safe, affordable, and reliable electrical or gas service. This bill contains other related provisions and other existing laws.

Introduced: 2/17/2026

Status: 7/1/2026-Failed Deadline pursuant to Rule 61(b)(13). (Last location was E.D., G., & H.I. on 6/4/2026)

Location: 7/1/2026-A. DEAD

Desk	Policy	Fiscal	Floor	Desk	Dead	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The Administrative Procedure Act requires a state agency proposing to adopt, amend, or repeal an administrative regulation to assess the potential for adverse economic impact on California business enterprises and individuals and avoid the imposition of unnecessary or unreasonable regulations or reporting, recordkeeping, or compliance requirements. The act requires a state agency proposing to adopt, amend, or repeal a major regulation to satisfy additional requirements, including by requiring the state agency to prepare a standardized regulatory impact analysis in the manner prescribed by the Department of Finance, as specified, and requires the analysis to address certain items, including the creation or elimination of jobs within the state and the competitive advantages or disadvantages for businesses currently doing business within the state. This bill would require an agency, in estimating the economic impact of adopting, amending, or repealing a regulation, to identify and calculate any offsetting benefits, impacts, or savings that might result directly or indirectly from that adoption, amendment, or repeal and factor those benefits, impacts, or savings into its economic impact estimate.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law requires the Public Utilities Commission, in consultation with the Independent System Operator, to establish resource adequacy requirements for all load-serving entities, as provided. Existing law defines load-serving entity, for that purpose, as an electrical corporation, electric service provider, or community choice aggregator. Existing law requires each load-serving entity to be subject to the same requirements for resource adequacy, the renewables portfolio standard program, and the integrated resource planning process that apply to electrical corporations, as provided. This bill would require the commission to authorize a load-serving entity to elect to demonstrate compliance with resource adequacy requirements by selling to, or otherwise making transactions with, another load-serving entity, and would require those transactions to not represent more than 25% of a load-

serving entity's compliance obligations and be of a short-term duration. The bill would require the commission to authorize those transactions to be denominated in the same unit of time used to denominate resource adequacy compliance requirements. The bill would authorize the commission to suspend or adjust that authority of a load-serving entity to sell to, or otherwise make transactions with, another load-serving entity, as specified.

Summary: Existing law requires the State Energy Resources Conservation and Development Commission and the Public Utilities Commission, on or before December 15, 2022, and quarterly thereafter, to submit to the Legislature a joint Reliability Planning Assessment that, among other things, includes prospective information on existing and expected resources, including updates on the interconnection status for renewable projects and any delays in interconnection, and expected retirements for both system and local resources. Existing law requires the Energy Commission to report in the energy almanac on California energy resources that serve load in California. This bill would require that the assessment also include the status of utility transmission upgrades and electrical grid infrastructure capacity and PUC approvals of applications for certificates of public convenience and necessity and permits to construct utility and independent projects, as specified.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law authorizes the State Air Resources Board (state board) to grant variances from gasoline specifications adopted by the state board and to impose fees and conditions in granting a variance. Existing law requires the commission, in the first assessment after January 1, 2026, to evaluate the cost and supply impacts of allowing the sale of gasoline with alternative specifications to support a reliable and affordable supply of transportation fuels in California. If the evaluation finds that allowing the sale of gasoline with alternative specifications is likely to support a reliable and affordable supply of transportation fuels in California, existing law requires the State Energy Resources Conservation and Development Commission, in coordination with the state board, to recommend a strategy to facilitate the sale of gasoline with those alternative specifications that, at a minimum, considers, among other things, the use of a fee, as provided, associated with the sale of gasoline with those alternative specifications to mitigate for any increase in emissions. This bill would require the commission to submit that assessment on or before July 1, rather than January 1, of the applicable year. The bill would require the commission to implement, rather than recommend, that strategy and would require the strategy to consider the use of fees and conditions, rather than fees alone, developed for the purposes described above.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: The California Environmental Quality Act (CEQA) requires a lead agency, before releasing an environmental review document for a project, to begin consultation with a California Native American tribe that is traditionally and culturally affiliated with the geographic area of the proposed project, as provided. CEQA authorizes the parties, as a part of the consultation, to propose mitigation measures capable of avoiding or substantially lessening potential significant impacts to a tribal cultural resource or alternatives that would avoid significant impacts to a tribal cultural resource. CEQA defines a tribal cultural resource as including, among other things, a site, feature, place, cultural landscape, sacred place, or object with cultural value to a California Native American tribe that is included or determined to be eligible for inclusion in the California Register of Historical Resources or included in a local register of historical resources, as provided. This bill would modify the definition of tribal cultural resource to, among other things, include a site, feature, place, cultural landscape, sacred place, or object with cultural value to a California Native American tribe that is identified by the Native American Heritage Commission as a sacred place, as provided, or included in a local tribal register and provided to the lead agency by a consulting California Native American tribe.

SB 1350 (McNerney D) Energy: renewable electrical generation facilities: definition.

Current Text: Chaptered: 6/29/2026 [html](#) [pdf](#)

Introduced: 2/20/2026

Last Amend: 6/23/2026

Status: 6/29/2026-Approved by the Governor. Chaptered by Secretary of State. Chapter 35, Statutes of 2026.

Location: 6/29/2026-S. CHAPTERED

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

Summary: Existing law defines a "renewable electrical generation facility" as a facility that uses biomass, solar thermal, photovoltaic, wind, geothermal, fuel cells or linear generators that use specified fuels, small hydroelectric generation of 30 megawatts or less, digester gas, municipal solid waste conversion, landfill gas, ocean wave, ocean thermal, or tidal current, and that meets other specified requirements. Existing law incorporates that definition into various programs, including the California Renewables Portfolio Standard Program, which requires the Public Utilities Commission to establish a renewables portfolio standard requiring all retail sellers, as defined, to procure a minimum quantity of electricity products from electrical generating facilities that meet that definition of "renewable electrical generation facility," and the net energy metering program, in which residential customers, small commercial customers, and commercial, industrial, or agricultural customers of an

electrical utility, who use renewable electrical generation facilities, are eligible to participate, as specified. This bill would expand the definition of "renewable electrical generation facility" to include a facility that converts hydrogen gas to electricity in a turbine and meets specified criteria.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conc.			

Summary: Existing law designates specific days as holidays in this state. Existing law designates holidays on which community colleges and public schools are authorized to close pursuant to a memorandum of understanding between the governing board and represented employees, including Cesar Chavez Day on March 31. Existing law entitles state employees, with specified exceptions, and authorizes certain community college and public school employees, to be given time off with pay for specified holidays, as specified. Existing law redesignates March 31 as Farmworkers Day instead of Cesar Chavez Day, and requires the Governor to annually proclaim March 31 as Farmworkers Day. This bill would remove the designation of March 31 as Cesar Chavez Day for purposes of holidays on which community colleges and public schools are authorized to close, and instead authorize community colleges and public schools to close on August 6, known as Farmworkers Day.
